

APR 10 1991

Mr. Robert G. Beach
Zep Manufacturing Company
P.O. Box 2015
Atlanta, GA 30301

Dear Mr. Beach:

Subject: Revised Label - Confidential Statement of Formula
Zep Thermo-Fog Insecticide
EPA Registration No. 1270-73
Your Submission Dated March 27, 1991

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable. A stamped copy is enclosed for your records.

As new labels are prepared, revise the precautions beginning with the statement "This product is toxic to fish . . ." to read as follows:

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not apply directly to any body of water. Do not contaminate water when disposing of equipment washwaters.

Retain all other elements of your precautionary text.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

DO NOT use, pour, spill, or store near heat or open flame. DO NOT contaminate water, food, or feed by storage and disposal. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. Triple rinse (or equivalent) the container. Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

For Control of Flies and Mosquitoes: Close doors and windows and spray all parts of room at the rate of one-half ounce product per 1,000 cubic feet of space. Leave room closed 10 to 15 minutes. Do not remain in treated area. Thoroughly ventilate area after treatment is completed. Then sweep up and destroy the fallen insects. Repeat as necessary.

For Killing Roaches and Ants: Apply as a coarse spray to point of run-off around baseboards, cracks, crevices, water pipe entrance, and other hiding places where infestation may occur. Repeat applications when necessary.

Accessible Stages of Granary Weevils, Caddis, Angoumois Grain Moths, Confused Flour Beetles, and Grain Mites: Liberally spray to point of run-off all insect runways and hiding places, around and under pallets so as to directly contact as many insects as possible. Repeat application to all infested surfaces when necessary. Infested stored food products should be fumigated or treated by other effective methods using an approved product intended for this purpose.

For Waterbugs, Silverfish, Centipedes and Spiders: Spray directly the infested area, working spray into cracks and other hiding places. Insects should be hit directly as far as possible. **Carpet Beetles:** May be controlled by spray treatment of floor coverings and all cracks in floors and along baseboards. **Bedbugs** in household may be controlled by thorough and repeated spraying of bed and mattress. Spray should always be directed into folds of mattress, around baseboards, walls and floors

DIRECTIONS FOR USE (C)

Clothes Moths: May be controlled by thorough spraying of particular attention to seams and folds. Be certain that surface of storage containers, closets, and trunks should all kill all moth larvae that may be feeding on lint in the cracks. in moth-tight containers, treatment should be repeated more
