GENERAL INFORMATION

ZEP X-16667 ~~XXXXXXXXXX~~ Weed Killer is a water-emulsifiable concentrate to be diluted with water and applied as a spray on non-cropland areas where bare ground is desired. It is an effective general herbicide for the control of many annual and perennial weeds and is particularly useful for the control of perennial grasses.

TIMING

To control most weeds for an extended period of time on non-cropland areas such as railroad, highway and pipeline rights of way, petroleum tank farms, lumberyards, storage areas, and industrial plant sites, for best results apply ZEP X-16667 ~~XXXXXXXXXX~~ in use solution when weeds are less than six inches high.
