Application for Pesticide - Section I

1. Company/Product Number 1270-130
2. EPA Product Manager Rob Forrest
3. Proposed Classification None Restricted
4. Company/Product Name Zep Formulz 2162
5. Name and Address of Applicant Zep Manufacturing Company
6. Expedited Review EPA Reg. No. Product Name

Section - II

Amendment - Explain below. Resubmission in response to Agency letter dated. Notification - Explain below. Final printed labels in response to Agency letter dated. Me Too Application. Other - Explain below.

Explanation: Use additional page(s) if necessary. (For section I and Section II.) NOTIFICATION to comply with PR NOTICE 95-1 I certify that this notification is consistent with PR 95-1 and EPA regulations at 40 CFR 152.46 and that no other changes have been made to the labeling of this product.

1. Material This Product Will Be Packaged In: Child-Resistant Packaging, Unit Packaging, Water Soluble Packaging, 2. Type of Container, 3. Location of Net Contents Information, 4. Size(s) Retail Container, 5. Location of Label Directions, 6. Manner in Which Label is Affixed to Product

Section - IV

1. Contact Point: Name Robert G. Beach, Title Scientist - Product Development, Telephone No. (404) 352-1680. Certification: I certify that the statements I have made on this form... 2. Signature Robert G. Beach, 3. Title Scientist - Product Development, 4. Typed Name Robert G. Beach, 5. Date 8/24/95, 6. Date Application Received (Stamped)

PROD. #2097

BEFORE USING THIS PRODUCT, PLEASE READ THIS ENTIRE LABEL.

ZEP FORMULA 2162

INSECTICIDE

Contains Malathion

NET CONTENTS/GALS.

Concentrated oil-soluble insecticide for the outside kill of flies, mosquitoes, ants, waterbugs, and cockroaches. This product is for outside use only; do not use inside the household.

ACTIVE INGREDIENTS:

Malathion (O,O-dimethyl phosphorodithioate of diethyl mercaptosuccinate) 50.00%

INERT INGREDIENTS*: 50.00%

TOTAL 100.00%

*Contains aromatic hydrocarbons

DIRECTIONS FOR USE (Con

MOSQUITO LARVE IN STANDING WATER: Apply the insecticide per acre. Mix in sufficient oil to obtain even coverage. Use dosage areas, stagnant water, temporary rain pools, sloughs, and log

OUTSIDE KILL OF ANTS, WATERBUGS, AND COCKROACHES: Mix kerosene, mineral spirits, or No. 2 fuel oil, add 1 gallon of insecticide to a coarse, wet spray to thoroughly wet surfaces frequented by cockroaches, around garbage dumps, refuse containers, building foundations, doorways, window sills, fence posts and rails, walkways and d

CAUTION

KEEP OUT OF REACH OF CHILDREN

See other precautions on side panel.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

DO NOT use, pour, spill, or store near heat or open flame. DO NOT contaminate water, food, or feed by storage and disposal. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. Triple rinse (or equivalent) the container. Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

OUTSIDE KILL OF FLIES AND MOSQUITOES: To each 39 gallons of kerosene, mineral spirits, or No. 2 fuel oil, add 1 gallon of insecticide. Apply as a fog or space spray at the rate of 1 gallon per acre. Best results are obtained if application is made at times of low wind velocity. Thermal currents from soil and paved streets during daylight hours will cause the insecticide mist to rise rapidly, thus decreasing the contact time of the insecticide with insect harborages near the ground. Therefore, applications of this type are most effectively made at night in most locales.

FOR INDUSTRIAL AND INSTITUTIONAL USE ONLY

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Harmful if swallowed. Avoid breathing spray mist. Avoid contact with eyes. Wash thoroughly after using.

Avoid contamination of feed and foodstuffs. May cause spots on fur. Automobiles should not be sprayed directly. If accidental exposure to skin, be washed immediately. Do not apply directly to ornamental plants.

This pesticide is toxic to fish, aquatic invertebrates, and aquatic plants. Do not apply directly to water or wetlands (i.e., swamps, bogs, marshes). Runoff may be hazardous to aquatic organisms in areas near water. Do not contaminate water when disposing of equipment washwaters.

This product is highly toxic to bees exposed to direct treatment or drifting from a treatment area. Do not apply this product or allow it to drift to blooming crops or honeybees in a treatment area.

STATEMENT OF PRACTICAL TREATMENT

If swallowed: DO NOT induce vomiting. Contact a physician immediately for treatment.

If on skin: Wash all areas contacted by product with soap and water. Consult a physician.

If in eyes: Flush eyes with water for 15 minutes. If irritation persists, consult a physician.

If inhaled: If discomfort or breathing difficulty arises, contact a physician.

PHYSICAL OR CHEMICAL HAZARDS

Combustible mixture - extinguish open flames before space spraying. Do not use, pour, spill, or store near heat or open flame.

ENVIRONMENTAL HAZARDS

Do not discharge effluent containing this product into lakes, streams, or other waters unless in accordance with the requirements of the National Pollution Discharge Elimination System (NPDES) permit and the permitting authority to discharge. Do not discharge effluent containing this product into navigable waters without previously notifying the local sewage treatment plant authority. For more information, contact your local Water Board or Regional Office of the EPA.
