OUTDOOR YARD AND PATIO FOGGER

ACTIVE INGREDIENTS:

1-(5-tercy-3-furyl) ethyl, 2,2-dimethyl-3-(2-ethylpropenyl) cyclopropane carboxylate	0.250% w/v
Related compounds	0.01%

INERT INGREDIENTS:

99.71%
100.00%

cis/trans isomers ratio: max. 30% (±) cis. and min. 70% (±) trans.
U.S. Patent No. 3,465,007.

SHAKE WELL BEFORE USING

CAUTION

KEEP OUT OF THE REACH OF CHILDREN

E.P.A. Reg. No. 1270-167

no breeze or spray in the direction of a slight breeze.

Controls flies, mosquitoes and gnats up to 21 feet away, using this fog nozzle.

DIRECTIONS FOR USE

Shake well before using. Point spray nozzle away from face and in the direction of the space to be treated. Press down valve bottom and allow spray fog to fill the air where flying pests linger. For larger areas, best results are obtained by spraying in the direction of a slight breeze that allows the fog to drift into the areas of infestation. Spray while moving away from treated areas. Allow spray to dissipate before occupying the treated area. Repeat as necessary.

FLYING INSECTS - Reduce annoyance from flies, mosquitoes, ticks and gnats, by directing spray from a distance of 4 to 6 feet from flowering plants, shrubbery, and grass to where the insects may be resting. Avoid heavy wetting of plant foliage. Also spray around garbage cans and other breeding areas. Repeat as necessary. Spray directly on wasps and hornets. Thoroughly wet the nesting area during the evening when these insects are least active.

CRAWLING INSECTS - Spray directly on ants, centipedes, cockroaches, and spiders. Treat areas around garbage cans, picnic sites and camp grounds infested by these pests. Also thoroughly spray ant hills for best results. Spray in short bursts of 2 seconds at a 4 to 6 foot distance for control of Brown Recluse Spider and Black Widow Spider. Repeat application as necessary.

CAUTION

KEEP OUT OF REACH OF CHILDREN

Avoid breathing spray mist. Avoid contact with skin. Harmful if swallowed. Not for indoor use. While spraying for flying insects outdoors, hold container 4 to 5 feet away from plants and shrubs. Direct spray to fill the air around these plants without heavily wetting the plant foliage. Avoid smoking while spraying. Cover food before spraying. Do not spray on food crops. Direct spray away from people or animals. Allow spray to dissipate for several minutes before entering the treated area.

This product is toxic to fish. Keep out of lakes, streams or ponds. Do not contaminate water by cleaning of equipment, or disposal of waste. Apply this product only as specified on this label.

WARNING: Contents under pressure. Do not puncture. Do not expose container to temperatures above 120°F. Never throw container into fire or incinerator.
