

ZEP[®]

ZEP 10-X SPECIAL INSECTICIDE

A residual type insecticide formulated especially to control roaches resistant to certain chlorinated hydrocarbon and phosphate insecticides.

Provides rapid kill and up to two weeks of residual insecticidal activity.

ACTIVE INGREDIENTS 94.94%
2-(1-Methyl-2-hydroxy-phenyl-methyl-carbamate)* 0.94%
Petroleum Distillate 84.00%
INERT INGREDIENTS 5.06%

*U. S. Patent No. 3,111,539

KILLS—Ants, Brown Dog Ticks, Cockroaches, Clover Mites, Crickets, Earwigs, Millipedes, Scorpions, Silverfish, Sawtooth Bugs, and exposed stages of Sawtoothed Grain Beetles, Hymenoptera, Hornets, Wasps, Fleas, Flies, and Mosquitoes (Outdoors Only).

DIRECTIONS

GENERAL—Apply with a low pressure sprayer equipped with a coarse spray nozzle. Spray surfaces only until wet. Avoid excessive runoff. Apply to all insect breeding sites and harborage. Also treat all well exposed areas where insects may crawl when they come out of hiding. Repeat treatment as necessary.

COCKROACHES—Thoroughly treat the infested area. Spray baseboards, cracks and crevices around window and door frames under surfaces of the bed, drawers and work tables, behind and beneath cabinets, refrigerators, sinks and stoves, in and around waste containers, switch panels, junction boxes, floor drains, and other places where cockroaches hide or nest.

ANTS—Apply to trails and places where ants enter premises such as around window frames and door sills. Spray halls and runways outdoors.

SAW TOOTHED GRAIN BEETLES—Thoroughly treat floors and walls of infested areas with attention to cracks, crevices, corners, and perimeters. Sanitation and dust control are of primary importance. Humigate or destroy infested products.

BROWN DOG TICKS—Spray sleeping quarters of pets around baseboards, window and door frames, wall cracks and floor areas of food. Repeat as needed. Fresh bedding should be placed in animal quarters after spraying. Do not spray animals.

CLOVER MITES, CRICKETS, EARWIGS, MILLIPEDES, SILVERFISH, SAW BUGS, SCORPIONS, AND SPIDERS—Thoroughly spray the interior and exterior perimeter of the infested premises. For Clover Mites, pay special attention outside around window frames.

FLEAS, FLEA MITES, TICKS, HORNETS, AND WASPS (Outdoors Only)—Spray infested areas thoroughly on all surfaces. Pay special attention to window frames, foundations, porches, and other areas where pests may enter. For Hornets and Wasps, apply after dark when all insects have returned to the nest.

FOOD HANDLING ESTABLISHMENTS—Places other than private residences in which exposed food is held, processed, prepared, served.

FOOD AREAS—APPLICATION LIMITED TO CRACK AND CREVICE TREATMENT ONLY.

Includes areas for receiving, storage, packing, canning, bottling, wrapping, boxing, preparing, eating, waste storage, and other food areas. Includes hotels, dining, eating and serving areas, serving areas, food preparation and facility is in operation and would be considered a food area.

EPA EST. NO. 1270-GA-1

Apply in small amounts directly into cracks and crevices using equipment capable of delivering a pen stream of insecticide in points between different elements of construction, between equipment and floors, spaces leading to voids and hollow spaces in walls, equipment legs and bases, conduits, motor housings, junction switch boxes, where ants, cockroaches, crickets, millipedes, silverfish, earwigs, spiders, etc. Prior to application, deenergize electrical equipment. After application, allow time for oil to evaporate before starting motors or plugging switches in the "ON" position.

Care should be taken to avoid depositing the product onto exposed surfaces or introducing the material into the air. Avoid contamination of food or food processing surfaces.

APPLICATIONS OF THIS PRODUCT IN THE FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS OTHER THAN AS A CRACK AND CREVICE TREATMENT ARE NOT PERMITTED.

SERVING AREAS—Facilities where prepared foods are served, such as dining rooms, but excluding areas where foods may be prepared are held.

Apply as a spot treatment to selective surfaces, such as baseboards, corner elements of construction into cracks and crevices. Avoid treating surfaces likely to be contacted by food. Do not apply when facility is in operation or foods are exposed.

NON-FOOD AREAS—Includes garbage rooms, lavatories, floor drains, to sewer entries, and vent pipes, attics, locker rooms, eating rooms, boiler rooms, garages, mop closets and storage (after canning or bottling).

Apply as a spot treatment to baseboard areas around water pipes, surfaces behind and beneath sinks, trunks, tables, panets and similar areas where insects hide or through which they may enter.

PRECAUTIONS—Do not use as a smoke spray. Provide adequate ventilation of area being treated. Do not allow children to contact treated areas until surfaces are thoroughly dry. Do not apply to animals. Do not spray plants, food, or any fabrics, carpets or other surfaces which would be stained or otherwise damaged by this product. Test product thoroughly in small, inconspicuous area before treating entire surface.

CAUTION

KEEP OUT OF REACH OF CHILDREN

May be harmful if swallowed, inhaled, or absorbed through the skin. Avoid breathing of spray mist and prevent entry and contact of area being treated with eyes, nose, or clothing or contact with exposed, treated surfaces. Avoid contamination of food, utensils and food preparation areas. If swallowed, do not induce vomiting.

DO NOT USE NEAR OPEN FLAME OR NEAR HEAT OR OPEN FLAME—Do not use near open flame. Return to original container or destroy by perforating or crushing and burying in a safe place.

This product is toxic to birds and other wildlife. Keep out of any body of water. Do not spray when a draft is likely to cause the product to spray when weather conditions favor drift. In areas treated, do not contaminate water, soil, food or equipment or disposal of wastes. Apply this product only as specified on this label.

EPA REG. NO. 1270-172

SPECIAL INSECTICIDE

A residual type insecticide formulated especially to control roaches resistant to certain chlorinated hydrocarbon and phosphate insecticides.

Provides rapid kill and up to two weeks of residual insecticidal activity.

ACTIVE INGREDIENTS: 89.94%

2-(1-Methylethoxy)phenol methylcarbamate*..... 0.94%
Petroleum Distillate..... 80.38%

INERT INGREDIENTS: 18.68%

*U. S. Patent No. 3,111,539.

KILLS: Ants, Brown Dog Ticks, Cockroaches, Clover Mites, Crickets, Earwigs, Millipedes, Scorpions, Silverfish, Sowbugs, Spiders, and exposed stages of Saw-toothed Grain Beetles (Indoors), Hornets, Wasps, Fleas, Flies, and Mosquitoes (Outdoors Only).

DIRECTIONS:

GENERAL: Apply with a low pressure sprayer equipped with a coarse spray nozzle. Spray surfaces only until wet. Avoid excessive runoff. Apply to all insect breeding sites and harborage. Also treat adjacent exposed surfaces where insects may crawl when they come out of hiding. Repeat treatment as necessary.

COCKROACHES: Thoroughly treat the infested area. Spray baseboards, cracks and crevices, around window and door frames, under surfaces of shelves, drawers and work tables, behind and beneath cabinets, refrigerators, sinks and stoves, in and around waste containers, switch panels, junction boxes, floor drains, and other places where cockroaches hide or nest.

ANTS: Apply to trails and places where ants enter premises such as around window frames and door sills. Spray hills and runways outdoors.

SAW-TOOTHED GRAIN BEETLES: Thoroughly treat floors and walls of infested areas with attention to cracks, crevices, corners, and perimeters. Sanitation and dust control are of primary importance. Fumigate or destroy infested products.

BROWN DOG TICKS: Spray sleeping quarters of pets, around baseboards, window and door frames, wall cracks and local areas of floors. Repeat as needed. Fresh bedding should be placed in animal quarters after spraying. Do not spray animals.

CLOVER MITES, CRICKETS, EARWIGS, MILLIPEDES, SILVERFISH, SOWBUGS, SCORPIONS, AND SPIDERS: Thoroughly spray the interior and exterior perimeter of the infested premises. For Clover Mites, pay special attention outside around window frames.

FLEAS, FLIES, MOSQUITOES, HORNETS, AND WASPS (Outdoors Only): Spray infested areas thoroughly outside surfaces of screen doors, window frames, foundations, patios, and other areas where insects may enter. For Hornets and Wasps, apply after dark when all insects have returned to the nest.

FOOD HANDLING ESTABLISHMENTS: Places other than private residences in which exposed food is held, processed, prepared or served.

FOOD AREAS - APPLICATION LIMITED TO CRACK AND CREVICE TREATMENT ONLY.

Includes areas for receiving, storage, packing (canning, bottling, wrapping, boxing) preparing, edible waste storage and enclosed processing systems (mills, dairies, edible oils, syrups). Serving areas (when food is exposed and facility is in operation also would be considered a food area).

Apply in small amounts directly into cracks and crevices using equipment capable of delivering a pin stream of insecticide in points between different elements of construction, between equipment and floors, openings leading to voids and hollow spaces, in walls, equipment legs and bases, conduits, motor housings, junction or switch boxes, where ants, cockroaches, crickets, millipedes, silverfish and spiders hide. Prior to application, de-energize electrical equipment. After application, allow time for oil to evaporate before starting motors or placing switches in the "ON" position.

Care should be taken to avoid depositing the product onto exposed surfaces or introducing the material into the air. Avoid contamination of food or food processing surfaces.

APPLICATIONS OF THIS PRODUCT IN THE FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS, OTHER THAN AS A CRACK AND CREVICE TREATMENT, ARE NOT PERMITTED.

SERVING AREAS: Facilities where prepared foods are served, such as dining rooms, but excluding areas where foods may be prepared are held.

Apply as a spot treatment to selective surfaces, such as baseboards, under elements of construction into cracks and crevices. Avoid treating surfaces likely to be contacted by food. (Do not apply when facility is in operation or foods are exposed.)

NON-FOOD AREAS: Includes garbage rooms, lavatories, floor drains (to sewer entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage (after canning or bottling).

Apply as a spot treatment to baseboard areas, around water pipes, surfaces behind and beneath sinks, lockers, tables, pallets and similar areas where insects hide or through which they may enter.

RESTRICTIONS: Do not use as a space spray. Provide adequate ventilation of area being treated. Do not allow children to contact treated areas until surfaces are thoroughly dry. Do not apply to animals. Do not spray plants. Do not apply to any fabrics, carpets or other surfaces which would be stained or otherwise damaged by this product. Test product thoroughly in small, inconspicuous area before treating entire surface.

CAUTION

KEEP OUT OF REACH OF CHILDREN

may be harmful if swallowed, inhaled or absorbed through the skin. Avoid breathing of spray mist and provide adequate ventilation of area being treated. Contact with skin, eyes or clothing should also be avoided. Wash thoroughly after using. Avoid contamination of food utensils and food preparation areas. To Physician: Atropine sulfate is antidotal.

DO NOT USE, POUR, SPILL, OR STORE NEAR HEAT OR OPEN FLAME. Do not reuse empty drum. Return to drum conditioner or destroy by perforating or crushing and burying in a safe place.

This product is toxic to birds and other wildlife. Keep out of any body of water. Do not apply where runoff is likely to occur. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment, or disposal of wastes. Apply this product only as specified on this label.
