

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND
DOMESTIC ANIMALS**

CAUTION

May be harmful if swallowed, inhaled, or absorbed through the skin. Avoid breathing of spray mist and provide adequate ventilation of area being treated. Contact with skin, eyes, or clothing should also be avoided. Wash thoroughly after using. Avoid contamination of food, utensils, and food preparation areas.

STATEMENT OF PRACTICAL TREATMENT

If Swallowed: Do not induce vomiting. If the substance is of Poison Control Center must be notified. Pesticide spray mist or fumes should not be inhaled. If on Skin: Wash immediately with soap and water. If in Eyes: Flush eyes with plenty of water. If irritation persists, consult a physician. If inhaled: If discomfort or breathing difficulty arises, contact a physician.

NOTE to Physician: Atropine sulfate is antidote.

PHYSICAL AND CHEMICAL HAZARDS

Do not use pour or spill near heat or open flame.

ENVIRONMENTAL HAZARDS

This product is toxic to fish and other aquatic life. Keep out of any body of water. Do not apply where runoff may occur. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

Do not store near heat or open flame. Do not contaminate water, food, or feed by storage and disposal. Pesticide spray mist or fumes that cannot be used according to label instructions must be disposed of according to Federal, State or local procedures under the Resource Conservation and Recovery Act. Triple rinse or equivalent and offer for recycling or reclamation. If disposed of in a sanitary landfill or by other approved state and local procedures.

GENERAL: Apply with a low pressure sprayer equipped with a coarse spray nozzle. Spray surfaces only until wet. Avoid excess spray runoff. Apply to all insect breeding sites and harborage. Also treat adjacent exposed surfaces where insects may come when they come out of hiding. Repeat treatment as necessary.

COCKROACHES: Thoroughly treat the infested area. Spray baseboards, cracks and crevices around windows and doors, and on the surfaces of shelves, drawers and work tables. Pay special attention to the underside of refrigerators, stoves and ovens. Spray in and under waste containers, sawtooth grain beetle infestations, and other places where cockroaches hide.

ANTS: Apply to trails and places where ants enter premises such as around window frames and doors. Spray trails and runways outdoors.
