COMMENTS

Removes dirt — Kills most harmful bacteria — Eliminates odors — All in ONE EASY operation.

ACTIVE INGREDIENTS: 37.91%
Soap 15.00%; Isopropanol 13.21%; Potassium ortho-benzyl-para-chlorophenate 5.28%;
Tetrasodium ethylenediamine tetraacetate 2.00%; Potassium ortho-phenylphenate
1.00%; Potassium 4- and 6-chloro-2-phenylphenate 1.18%; Formaldehyde 0.04%;
Essential Oils 0.20%.

INERT INGREDIENTS: 62.09%
Meets AOAC Use-Dilution Test against Staphylococcus aureus and Salmonella choleraesuis at a dilution of 1:128. Meets AOAC Use-Dilution Test against Pseudomonas aeruginosa at a dilution of 1:64.

Kills Mycobacterium tuberculosis var. bovis BCG in an invitro test at a dilution of 1:64.
An effective combination of detergent, sanitizers, and deodorants for cleaning and disinfecting such surfaces as floors, walls, porcelain tile, glass, stainless steel, bedpans, and other utensils. Especially recommended for use in hospitals and clinics. Can be used on terrazzo, marble, ceramic tile, asphalt, vinyl, rubber, and other composition floors.

DIRECTIONS

- This is a concentrate. Dilute as directed before use.
1. To Clean and Disinfect Hospital Utensils and Equipment such as Bedpans, Surgical Instruments, Operating Room Equipment: Wash with solution containing two ounces per gallon of water. Allow solution to remain on surface 10 minutes and rinse.
 2. To Disinfect Sheets, Linens, Aprons, Uniforms, and Other Fabrics: Soak in solution containing 2 ounces per gallon of water prior to routine laundering.
 3. To Clean and Disinfect Premises Occupied by Tuberculosis Patients: Use a solution of 2 ounces per gallon of water. Thoroughly clean all hard surfaces such as floors, walls, bed railings, with this solution. Allow 10 minutes contact and rinse.
 4. To Clean and Sanitize Floors, Walls, Tables, Bed Frames, and Other Furniture, Refrigerators, Stoves, Sinks, Food Utensils, Garbage Cans, Floors, and Walls of Showerstalls, Lockerooms, Bathrooms, and Bathroom Fixtures such as Toilets (exterior bowl surfaces), Urinals, and Washbasins: Use approximately 2 ounces per gallon of water. Scrub surfaces thoroughly with this solution. Allow 10 minutes contact time and rinse.

- Treated food contact surfaces must be thoroughly scrubbed with detergent solution and rinsed with potable water prior to re-use.
5. To Clean and Disinfect Combs, Brushes, Razors, Scissors, Rubber Gloves, and Other Items: Wipe articles and soak for 10 minutes in a solution containing 2 ounces per gallon of water. Rinse thoroughly.
 6. As a Cleaning Agent to Aid in Preventing the Spread of Athletes Foot Fungi on Environmental Surfaces: For use in lockerrooms, swimming pool areas, and other non-porous surfaces, dilute by mixing 2 ounces per gallon of water and scrub the surface vigorously. Rinse with clear water.

DANGER!
KEEP OUT OF REACH OF CHILDREN

Corrosive. Causes eye and skin damage. Do not get in eyes, on skin, or on clothing. Protect eyes and skin when handling concentrate. Harmful or fatal if swallowed. Avoid contamination of food. Do not use, pour, spill or store near heat or open flame.
FIRST AID: In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before re-use. If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.
NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed. Do not reuse empty container. Wash thoroughly with detergent and water before discarding in a safe place or returning to drum reconditioner.

This product will kill the following organisms on environmental surfaces:
Salmonella choleraesuis
Staphylococcus aureus
Pseudomonas aeruginosa
Trichophyton interdigitale
Mycobacterium tuberculosis
var. bovis BCG
