ZEP CHECKMATE

DETERGENT SANITIZER

This product is recommended for use on food processing equipment and utensils including dairy and brewery equipment and utensils. It is also recommended for use on dishes and glasses.

ACTIVE INGREDIENTS:

Sodium dichloro-s-triazinetrione dihydrate (provides 3.2% available chlorine)..... 5.60%

INERT INGREDIENTS:..... 94.40%

TOTAL..... 100.00%

WARNING

KEEP OUT OF REACH OF CHILDREN

STATEMENT OF PRACTICAL TREATMENT

- F SWALLOWED:** Feed bread soaked in milk, followed by olive oil or cooking oil. Call a physician immediately.
- F INHALED:** Contact a physician immediately if breathing difficulty arises or irritation persists.
- F ON SKIN:** Brush off excess material and flush skin with cold water for at least 15 minutes. If irritation persists, contact a physician.
- F IN EYES:** Immediately flush eyes with plenty of water for at least 15 minutes. Contact a physician.

See Right Side Panel for Additional Precautionary Statements.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING

Harmful if swallowed. May cause eye damage and skin irritation. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. May be irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not discharge into lakes, streams, ponds, or public waterways unless accordance with a NPDES permit. For guidance, contact the regional office of the U. S. Environmental Protection Agency.

PHYSICAL OR CHEMICAL HAZARDS

Strong oxidizing agent. Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction, with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not reseal container. If possible isolate container in open air or well ventilated area. Flood with large volumes of water, if necessary.

STORAGE AND DISPOSAL

STORAGE: Store in a cool, dry, well ventilated area. Moisture contamination may liberate irritating and hazardous chlorine containing gases. Oxidizing material: Do not mix with other chemicals. Contact with organic matter may cause fire. Decomposes at 350-475°F. with liberation of harmful gases. In case of decomposition, if possible, isolate container in open air or well ventilated area. Flood with large volume of water, if necessary.

DISPOSAL: DO NOT contaminate water, food, or feed by storage and disposal. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. Completely empty line by shaking and tapping sides and bottom to loosen clinging particles. Empty residue into application equipment. Then dispose of liner in a sanitary landfill or by incineration if allowed by state and local authorities if drum is contaminated and cannot be reused, dispose of in the same manner.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
NOTE: Use a chlorine test kit to insure that chlorine levels do not fall below 50 ppm or rise above 100 ppm.

TO SANITIZE SMALL ITEMS SUCH AS GLASSES, DISHES, EQUIPMENT, OR UTENSILS: Remove gross filth and heavy soil. Clean and rinse surfaces before sanitizing. Prepare a sanitizing solution by dissolving 4-1/4 oz. per 10 gallons of warm (125°F.) water (100 ppm available chlorine). Then place dishes, glasses, equipment or utensils in this solution for 2 to 5 minutes. Hollow objects should be flushed and filled. Remove and let objects drain and air dry. Prepare fresh sanitizing solution at least daily or more often if the solution becomes diluted or soiled.

FOR IMMERSION OR SPRAY-TYPE MACHINES: Prepare solution as above. Remove gross filth and heavy soil from articles to be sanitized. Clean and rinse with potable water. Allow a net contact time of 2 to 5 minutes with the sanitizing solution. Let surfaces drain and air dry. Prepare fresh sanitizing solution daily or more often if the solution becomes diluted or soiled.
