

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS
AND DOMESTIC ANIMALS**

DANGER

Corrosive: CONTAINS HYDROCHLORIC ACID. May be fatal if swallowed. Do not breathe vapor or fumes. Produces chemical burns. Do not get in eyes, on skin, or on clothing. Causes eye and skin damage. Wear goggles or face shield and rubber gloves when handling. For indoor use only.

CHEMICAL OR PHYSICAL HAZARD

Do not use in combination with hypochlorites or other bleaching agents. Toxic and/or hazardous fumes may be released.

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Give several glasses of water and milk of magnesia. Follow with raw egg whites or two tablespoons of vegetable oil. Do not induce vomiting. Call physician immediately.

IF IN EYES: Flush eyes thoroughly with warm water for at least 15 minutes and get prompt medical attention.

IF ON SKIN: Wipe off gently with absorbent cloth or paper towel; immediately flood the skin with water using soap freely, then cover with moist magnesia or baking soda.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

DIRECTIONS FOR USE

GENERAL CLASSIFICATION

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

Do not re-use empty container. Rinse with water or a dilute solution of sodium bicarbonate (baking soda) and pour into toilet bowl. Wrap container and place in trash collection. This product must be kept in locked storage sufficient to make it inaccessible to children or persons unfamiliar with its proper use.

**CLINGING COLOR INDICATOR FORMULA

**DIRECTIONS (Cont'd)
READ ENTIRE LABEL BEFORE USING.**

Do not apply when children are likely to come into contact with surfaces as they are being treated.

TOILET BOWLS: To clean, simply squirt at least one ounce VETO under rim and around sides. Allow it to stand for several minutes. Then scrub entire surface with a bowl mop, flush, and rinse. To disinfect, allow solution to remain in bowl at least 10 minutes after scrubbing.

URINALS: Remove screens or strainers. Then squirt at least one ounce around edges and top, allowing VETO to flow down over surfaces. Allow it to stand for several minutes before scrubbing, then flush and rinse. To disinfect, allow solution to remain in urinal at least 10 minutes after scrubbing.

TO CLEAN WATER TANKS: Shut off the intake valve, and drain the tank. Then apply VETO over the entire surface of box. Let stand several minutes before swabbing with a wet bowl mop. Refill tank, and flush at least twice.

CAUTION: Handle carefully, use a bowl mop for scrubbing. Use only on vitreous surfaces. DO NOT use on sinks, bathtubs, or any enameled surfaces. Avoid contact with chrome and other decorative metal surfaces.

Quickly removes rust, stains, scale and residues from toilet bowls and urinals. Special cling formula works longer and harder on vertical surfaces. Special indicator dye shows untreated surfaces, and insures proper scrubbing. Leaves a pleasant, fresh fragrance. Won't harm septic tanks, drain lines or disposal plants.

**FOR INDUSTRIAL AND INSTITUTIONAL
USE ONLY.**
