DIRECTIONS FOR USE (Cont'd)

Do not use in areas where children or animals are present. Do not use in areas where food is stored. Do not use in areas where food is prepared or processed. Do not use in areas where food is stored while food is present.

Space Spray - To kill flies, mosquitoes, and gnats, spray in a room or area to be treated. Shut off air conditioner and ventilator system. Seal all open vents. Remove fish and pets. Apply undiluted as a very fine mist space spray through manually operated equipment or with electrical and other powered agitators. Avoid staining by holding the spray nozzle at least five feet from objects. Direct the fine spray mist toward the upper corner of the room. Fill the room with a fine mist space spray at the rate of 5 fluid ounces per 1,000 cubic feet. Leave room closed for one-half hour. Ventilate thoroughly before re-entry. Sweep up and destroy insects.

Contact Sprays - To kill roaches, ants, sowbugs, grain mites, sowbugs, spiders and centipedes. Adjust spray to produce large wetting type spray particles. Direct spray to contact these insects in cracks and crevices in floors, baseboards, around pipes, behind cabinets, and other harborage. Spray these infested areas until thoroughly wet. Repeat as necessary.

To Kill Spiders - Spray directly on these pests, and use repeated applications to the webbing and all cracks and crevices which harbor spiders.

To Kill Ants - Spray doors, around window frames, ant trails and hills.

To Kill Grain Insects - A full of confused flour beetles, sawtooth grain beetles, shiny spider beetles. Remove infested grain, or flour, and destroy. Avoid contamination of other food. Use at least 1000 cubic feet of air by spraying before spraying. Spray directly on insects, and into cracks and crevices. When grain is infested, spray the grain, and grain growing areas, to kill insects. Do not use in areas where food is stored. Do not use in areas where food is prepared or processed. Do not use in areas where food is stored while food is present. Do not use in areas where food is stored while food is present.
