

**PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS AND  
DOMESTIC ANIMALS  
CAUTION**

Harmful if swallowed or absorbed through the skin. Avoid breathing vapors or spray mist. Avoid contact with skin and eyes. Remove pets, birds, and fish before spraying. In hospitals, remove patients from rooms prior to treatment. Ventilate treated area for at least 2 hours prior to returning patients.

**FIRST AID:** If Swallowed: Contact a physician or poison control center immediately. If in Eyes: Immediately flush with plenty of water. Get medical attention if irritation persists. If On Skin: Wash affected areas with soap and water. Remove all contaminated clothing and wash prior to reuse. Get medical attention if irritation persists.

DO NOT apply directly to food. DO NOT contaminate food or feedstuffs with this spray. In commercial food handling facilities, cover or remove any food and food processing equipment during application. DO NOT apply while food processing is underway. After spraying in food processing plants, food contact surfaces and equipment must be washed with an effective cleaning compound followed by a potable water rinse.

**PHYSICAL OR CHEMICAL  
HAZARDS**

Flammable. Contents under pressure. Keep away from heat, sparks, and flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F. may cause bursting.

**STORAGE AND  
DISPOSAL**

**Storage:** Store in original container and in a cool, dry, locked area away from heat or open flame.  
**Disposal:** Replace cap and discard container in trash. Do not incinerate or puncture.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**DIRECTIONS (CONT'D):**

For total release, use one can for each 6,000 cu. ft. of unobstructed area. Shut off fans, air conditioners, all flames, and pilot lights. Close doors and windows and keep closed for 2 hours before ventilating treated area. Point the valve opening away from face and press valve all the way down until it clicks. Then immediately place can on stand or table covered with newspapers in center of unobstructed area. Leave the area being treated at once and ventilate for at least 30 minutes before reoccupying.

For intermittent spraying, aim valve opening toward area or pests to be sprayed and press valve down taking care not to lock in open position. Units used in this manner cannot be used for total release treatments.

**For Flying Insects —** Houseflies, Mosquitoes, Small Flying Moths, Wasps, and Gnats: Follow directions for total release or intermittent fogging as desired. After treatment, sweep up and destroy fallen insects.

**For Crawling Insects —** Cockroaches, Ants, Crickets, Centipedes, Earwigs, Fleas, Ticks and Spiders: Use as an intermittent spray and thoroughly treat hiding places, such as cracks, crevices, moist areas, openings around pipes, under sinks and refrigerators, along and behind baseboards, and in storage areas, contacting as many insects as possible. Repeat applications as necessary.

**For Ants:** Careful treatment of door and window frames and trails and hills is necessary.

**For Spiders:** Be sure to spray directly on pests and webbing, as well as in hiding places.

**For Fleas and Ticks:** Spray directly on pests, floors, floor coverings, and furniture. Treat pet's beds and resting areas, nearby cracks and crevices, along and behind baseboards, around window and door frames. Old bedding of pets should be removed and replaced with clean, fresh bedding after treatment of pet areas. **DO NOT TREAT PETS WITH THIS PRODUCT.** Treat pets with a product registered for animal application to control the source of the flea and tick infestation.

**ACTIVE INGREDIENTS:**

*Permethrin .....	0.500%
*METHYLDIETHYL PHTHALATE .....	99.50%
<b>TOTAL .....</b>	<b>100.000%</b>

\*Cis/trans isomers ratio: max. 30% (1)trans.  
†U. S. Patent Nos. 3,485,007 and 3,542,928.  
\*Contains petroleum distillate
