

Oliver Chemical Co., Inc.  
2206 Spring Grove Ave.  
Cincinnati, OH 45225

Attention: Mr. F. Oliver Stone

Gentlemen:

Subject: Mint-Odor Disinfectant  
EPA Registration No. 1275-21  
Application Dated April 10, 1984

The label referred to above, submitted in connection with registration under FIFRA, is acceptable provided that you:

1. Make the labeling changes listed below before you release the product for shipment bearing the proposed labeling:
  - a. Based on the directions for use, the statement "Do not breathe spray mist" should be deleted since there are no directions for spraying.
  - b. The phrase "inhalation or absorbed through skin" should be deleted from "Harmful if swallowed."
  - c. Delete the 70% Phenol coefficient. The 70% Phenol Coefficient which are permitted only on the label of those products when the active ingredient can be considered meaningful, and necessary to show, only if the Phenol Coefficient of a product, as shown on the label, can be obtained by the factor "70" to provide the effective use dilution of the product (as confirmed by the appropriate laboratory method) with the active ingredient on the label. Since this is not true for this product, the Phenol Coefficient should be deleted.
  - d. In the "Directions for use" paragraph, delete the phrase "or buty alcohol" and insert "with water for dilution" or use the following phrase: "Dilute with water for use" as indicated in 10.4 of PP Notice 84-10000-01.

Labels bearing the name of this product may be disposed of at site or at an approved waste disposal facility.

-2-

- e. In the "Container Disposal" paragraph, delete the phrase "or bury in a safe place."
  - f. Submit five (5) copies of your final printed labeling before you release the product for shipment.
2. A stamped copy of the labeling is enclosed for your records.
  3. The submitted revised Confidential Statement of Formula is acceptable, and has been made part of your file.

Sincerely yours,

John R. Lee  
Product Manager (31)  
Disinfectants Branch  
Registration Division (TS-767C)
