Basic Copper Sulfate

KEEP OUT OF REACH OF CHILDREN

CAUTION

HARMFUL IF SWALLOWED
AVOID CONTACT WITH EYES

In case of:
Contact with eyes — Flush eyes with plenty of water
Contact with skin — Wash exposed skin thoroughly
See back panel for additional precautionary statements

NOT FOR MEDICINAL USE

EPA EST NO 1278 NY1
EPA REGISTRATION NO 1278 1AA

MANUFACTURED BY

ACTIVE INGREDIENT:
COPPER EXPRESSED AS METALLIC 52%
INERT INGREDIENTS: 48%
TOTAL 100%

See reverse side for mixing directions and recommendations for use. For specific information regarding the proper strength, time of application and frequency of application for any particular crop or locality consult State Agricultural Experiment Station or State Extension Service Specialists.

MADE IN THE UNITED STATES OF AMERICA

Basic Copper Sulfate

Basic Copper Sulphate

BASIC COPPER SULPHATE may be used on crops for which Bordeaux mixture is recommended (in some cases lime should be added. Consult your State Agricultural Extension Service for a formula). Use Basic Copper Sulphate one-half the amount of copper sulfate (bluestone) required in a recommended Bordeaux formula.

Amount of BASIC COPPER SULPHATE Required to Equal an 8-4-10 Bordeaux Mixture

Amount of Bordeaux Mixture	100 Gal.	75 Gal.	50 Gal.	25 Gal.	10 Gal.	5 Gal.	1 Gal.
Basic Copper Sulphate	4 lbs.	2 lbs.	1 lb.	1/2 lb.	1/4 lb.	1/8 lb.	1/32 lb.

DIRECTIONS FOR USE

All dosages are in pounds of Basic Copper Sulphate per 100 gallons of water. For concentrated sprays, use sprayer manufacturer's directions. Consult with your State Agricultural Extension Agent for spray recommendations for your area.
