

[1289-17]

For Use In:

Homes, Restaurants, Food Processing Plants, Bottling Plants, Breweries, Markets, Stores, Canneries, Packing Houses, Theaters, Hotels, Hospitals, Institutions, Mills, Elevators, Granaries, Warehouses, Box Cars, Poultry Establishments, Milk Rooms, Dairy Buildings and on Dairy Animals.

DIRECTIONS

For most effective results against the active stages of flying, running and crawling insects, use in a good sprayer adjusted to deliver a fine mist. Treat infested areas thoroughly and whenever possible, keep doors and windows closed for 10 minutes after spraying.

Flies, Mosquitoes, Wasps and Certain Other Flying Insects

Spray Kil-O-Mist toward the ceiling and saturate the atmosphere with the mist. Sweep up the dead insects.

Roaches, Silverfish, Crickets, Spiders

Spray infested areas thoroughly and direct the liquid behind baseboards, moldings, cabinets, shelves, sinks, door and window frames and pipes; towards drains and dark corners, and into cracks, recesses and similar hiding places.

Ants

Treat thoroughly shelves, cabinets and storage areas; spray ant runs, trails, baseboards, thresholds and other places of entry, and treat nests liberally.

Moths, Carpet Beetles

Spray thoroughly closets, trunks and other storage places, making sure to reach all hiding places. Brush and clean clothing and spray carefully from a distance of 3 feet, making sure to reach seams, folds and other hiding places. Treat both sides of rugs, carpets and pads, and all exposed and accessible surfaces of overstuffed furniture. Clothing in closets and chests which are not moth-tight should be sprayed monthly. This spray kills all adults, larvae and eggs with which it comes in contact.

DIRECTIONS (Continued)

Fleas

Spray thoroughly baseboards, rugs, carpets, floors and sleeping quarters of animals.

Bed Bugs

Apply liberally to top, ends, sides and bottom of mattresses, spraying thoroughly all tufts, seams and folds. Spray springs and frame, directing the liquid into all cracks and lock joints. Treat walls, baseboards, moldings, floors, closets and bedroom furniture, with particular attention to protected bedbug hiding and breeding places.

Accessible Stages of Granary Weevil and Grain Moth

Spray floors, walls and other surfaces of bins, storage and handling areas thoroughly, with particular attention to cracks, crevices and similar protected locations. Treat unloading, handling and processing areas, and apply to conveying, processing and handling equipment.

Dairy Stock and Other Animals (such as Beef Cattle, Hogs, Horses, Sheep):

Hornflies, Stable Flies, Houseflies, Mosquitoes and Gnats — Apply as a fine, mist-type spray, using 1 to 2 ounces per head once or twice daily.

Kil-O-Mist is an excellent insecticide for use as a vapor, fog or mist spray in special generators. Regulate dosage in accordance with equipment manufacturers' directions for the particular type applicator employed. Application should be sufficient to thoroughly fill the enclosure with the fog, mist or vapor.

Repeat all directions when necessary.
