Control 56

LIQUID
INSECTICIDE

REGISTERED
7-26-67
1299-6

Especially prepared for use in fogging apparatus

ACTIVE INGREDIENTS 100%

*Piperonyl butoxide technical	0.6%	Petroleum distillate	98.9%
Pyrethrins	0.5%		

*Equivalent to 0.48% of (butylcarbityl) (6-propylpiperonyl) ether and to 0.12% of related compounds.

CONTROL 56 contains a high percentage of active ingredients. When used in conjunction with a fog generator the insecticidal fog permeates into open cracks and crevices killing many flying and crawling insects.

CONTROL 56 is especially adapted for use in food processing plants and kills the accessible, exposed stages of flies, mosquitoes, silverfish, gnats, crickets, roaches, spiders, scorpions, wasps, hornets, flying moths, clover mites, cheese mites, cheese skipper; and most common stored grain pests including granary weevil, rice weevil, confused flour beetle, angoumois grain moth, Mediterranean flour moth, meal worms, cigarette beetle, drug store beetle and grain mites.

DIRECTIONS

The fog generator should be placed so that sufficient fog should be built up in the area to be treated using approximately one quart CONTROL 56 to each 5000 cubic feet of space. Repeat treatment weekly or semi-monthly, as required. Protect food handling surfaces during use.

CONTROL 56 when used as directed, can be used around food, food products, utensils and equipment without danger of contamination or poisonous residue, but should not be applied directly to uncovered food or foodstuffs. Food handling surfaces should be thoroughly washed before use.

CAUTION: KEEP OUT OF REACH OF CHILDREN

HARMFUL IF SWALLOWED

CONTROL 56 is an oil base material and should not be sprayed, stored or otherwise exposed to an open flame. Use the product as a space spray in food processing plants only when plant is not in operation.
