DIRECTIONS FOR USE

- SARCOPTIC MANGE Mix McNess Mange Oil Concentrate at the rate of 1 quart to 25 gallons of water. Spray animals, wetting them thoroughly. Repeat after a 14 day interval.
- LICE Mix McNess Mange Oil Concentrate at the rate of 1 quart to 40 gallons of water. Spray animals thoroughly. A single application is usually sufficient.
- HOG RUBBERS McNess Mange Oil Concentrate may also be mixed with diesel fuels or light motor oil and used with hog rubbers to aid in controlling lice. Mix 1 quart McNess Mange Oil Concentrate with 3 gallons of oil. Soak burlap roll so that it is thoroughly wet. Repeat as necessary. 10 weeks of use is usually required by good control of lice.
- WARNING: May be absorbed through the skin. May be fatal if swallowed. Do not breathe spray mist. Do not get in eyes, on skin or clothing. Wash thoroughly after using. Do not store near feed and food products. To protect fish and wildlife, do not contaminate streams, lakes or ponds with this material. Do not use or store near heat or open flame. Do not use on household pets or humans. Do not use within 30 days of slaughter.
