**PRECAUTIONARY STATEMENTS**  
**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

### CAUTION

Caution: Irritant to humans through skin. Contains petroleum distillate. Do not ingest or swallow because of potential poisoning hazard. Do not breathe vapors or spray mist. Avoid contact with skin or eyes. In case of contact, flush with plenty of water. Flush with soap and warm water after use. Obtain medical attention if adverse persists. Avoid contact with food or feed ingredients.

Do not apply with food processing in underway. Cover or remove all food processing surfaces. Thoroughly wash all food processing surfaces before use. After spraying on bottles, metal packing plants, food processing plants, etc., if food processing equipment, etc. where exposed food will be packed must be washed with an effective cleaning compound followed by a potable water rinse to remove all traces of contamination.

In the home, all food processing surfaces and utensils should be covered during treatment or thoroughly washed and covered before use.

Remove pets, birds and other fish aquariums before spraying.

**Caution Statement: Warning: Contains (1) Trichlorobenzene, a substance which causes public health and environmental damage by destroying ozone in the upper atmosphere.**

**PHYSICAL OR CHEMICAL HAZARDS**

Caution: Highly flammable. Keep away from heat, sparks, and open flame. Do not puncture or incinerate containers.

Exposure to temperatures above 130°F may cause bursting.

Do not use this product in or on electrical equipment, due to the possibility of shock hazard.

**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

**TO OPERATE:** - Remove protective cap. Hold can upright and point nozzle in direction to be sprayed. Depress button to release mist. Hold 4-6 seconds; (2) 1/2 min. and 1/2 min. when spraying.

**INDOOR SPRAYING:** - For FLEAS, CHATS and MOSQUITOES: Spray doors and windows and spray toward ceiling at the rate of 1/2 oz. (15) to 1 oz. (30) seconds per each 100 cubic feet of space (10' x 10' x 10'). For COCKROACHES, keep room closed for at least 1 hour (15) minutes after spraying. DO NOT re-enter in treated areas, and ventilate the area after treatment is complete.

**ROACHES AND SILVERFISH:** - To kill roaches and silverfish, direct spray into cracks, crevices and other hiding places. Apply liberally. Spray in cracks when they appear. Repeat treatment as necessary.

**ANTS:** - In all cases, spray directly at insects as well as in their nests and other places where ants gather. Repeat treatment as necessary.

**FLEAS:** - To kill fleas, spray infested quarters liberally. Apply directly to dogs, horses, cats, birds and small domestic animals. Repeat treatment as necessary.

**MOSQUITOES:** - Remove or destroy them directly and spray all surfaces thoroughly. Close doors for 10 minutes. Spray surfaces of porches, including eaves, ledges and ledges, before returning to closed. Repeat treatment every 10-15 days if necessary and if needed in multiple treatments.

**FOOD PROCESSING PLANTS:** - Food should be removed or covered during treatment. All food processing contacts should be covered during spraying or thoroughly cleaned before use. When using product in these areas, apply only when plant is not in operation.

**BIRY BIRMS AND MILK ROOMS:** - To control flies in dairy barns and milk rooms, direct spray toward ceiling. Do not spray mist in the air. Allow 20 to 30 minutes per each 1000 cubic feet of space. For best results, mist in the air. For best results, keep all doors and windows closed when possible. Repeat treatment as necessary.

**CAUTION:** - Cover all animals when spraying. Remove pets from premises. To prevent contamination of milk and cream, keep covered.

**STORAGE:** - Store in a cool dry place away from heat and open flame.

**DISPOSAL:** - Puncture cap and discard container in trash. Do not reuse or reuse in.

**EXTREMELY FLAMMABLE: CONTENTS UNDER PRESSURE. KEEP AWAY FROM FIRE, SPARKS, AND HEATED SURFACES. DO NOT PUNCTURE OR INCINERATE CONTAINER. EXPOSURE TO TEMPERATURES ABOVE 130°F MAY CAUSE BURSTING.**
