

1326-26

### DIRECTIONS

**To Operate:** Remove protective valve cap. Point small opening on side of valve away from you and press button to release mist. Always hold dispenser at least three feet from any surfaces.

**For Flying Insects – houseflies/mosquitoes:** Shut doors and windows, turn off exhaust fans and spray room at the rate of three to five seconds per 1000 cubic feet. Keep room closed for at least fifteen minutes after spraying. Do not remain in treated areas. Ventilate the area after treatment is completed.

**Out of Doors:** For temporary relief from mosquitoes and flies, give a general misting of the area when the air is quiet. Frequent repeated applications may be necessary.

**To Kill Roaches and Silverfish:** Spray directly into cracks, crevices and other secluded places. Direct spray at insects when they appear. Average size kitchen requires 65 to 75 seconds of spraying. Close room for an hour following treatment. Repeat when necessary. Do not remain in treated areas. Ventilate the area after treatment is completed.

**To Kill Ants:** Spray directly at insects and ant trails and other places where ants congregate. Repeat when necessary.

**To Kill Clothes Moths:** First clean and brush garments, then, holding dispenser at least three feet from surface, spray lapels, folds, seams, etc. Spray empty closets using 30 to 40 second exposure. Repeat treatment every thirty days unless clothing is stored in moth-tight containers.

# WALTHAM CHEMICAL CO.

## PROFESSIONAL INSECT KILLER

### Effective—Economical

### CAUTION

KEEP OUT OF REACH OF CHILDREN  
(SEE RIGHT PANEL FOR CAUTIONS)

EPA Reg. No. 1326-26

EPA EST. 5693-MA-1

*Manufactured for*

### Waltham Chemical Co.

*Exterminating and Termite Control Since 1893*

817 Moody Street  
Waltham, Massachusetts 02154
