

## DIRECTIONS

**ANTS:** Apply to areas around door sills and window frames and ant trails where the pests may enter the premises. Treat openings around water pipes, heat ducts, electrical outlets, and baseboards where ants come into rooms from wall spaces and partitions. Application should be repeated to maintain effective control.

**ROACHES, WATERBUGS, SILVER FISH, CARPET BEETLES and CRICKETS:** Apply to infested areas such as cracks, under carpets around baseboards, behind shelving, book cases and storage areas. Repeat treatment as often as necessary to maintain effective control.

**HOUSEFLIES and WASPS:** Apply dust to selected surfaces such as doors, around windows and areas frequented by these insects. Repeat application as necessary. For controlling these pests **OUTDOORS** and for preventing the entry of these pests into human dwellings make thorough dusting of screens, window frames, doorsills and selected areas of porches where these insects tend to light or congregate. Repeat application as needed, since residues on outside of buildings tend to deteriorate quite rapidly. In case of **WASPS** it may be advisable to dust the nest with a heavy application after dark when all wasps have returned to the nest.

**SPIDERS and CENTIPEDES:** Apply dust thoroughly to baseboards, and corners, around pipes, storage areas and other infested areas of basements. Repeat application as necessary.

**SOIL PESTS IN GARDENS:** For Wireworms, White Grubs, Root maggots on cabbage, onion, and squash: Apply dust to seed bed of garden at the rate of 1 pound to 500 square feet. Work the dust into the top 3 or 4 inches of the soil when preparing the seedbed.

**FLORAL INSECTS:** For control of **ROSE CHAFER** on Roses, Iris and Peony, apply dust early to protect the blossoms and flowers. Repeat application as necessary.

For the control of **THRIPS** on Gladiolus (growing) and other flowers, apply dust at the first sight of injury. Repeat treatment as necessary.

NET CONTENTS 1 GALLON

AA INDUSTRIAL SPRAY

CAUTION COMBUSTIBLE MIXTURE

DO NOT POUR OR SPILL OVER OPEN FLAME

IMPORTANT: READ INSTRUCTIONS

<b>Active Ingredients:</b> Technical Chloroform	2%
Refined Petroleum Solvent	98%

Total	100%
-------	------

Equivalent to 1.1% of Chloroform, 4,7-dimethano-4-tetrahydro-  
dane and .8% related compounds.

**DIRECTIONS FOR QUICK KNOCKDOWN SPRAYING:** Close windows and doors. Spray towards the ceiling, leaving door closed for approximately 10 minutes or longer. Reopen windows and doors and let fresh air into room before reoccupancy. Spray all parts of room thoroughly.

**DIRECTIONS FOR CRAWLING INSECTS:** Spray thoroughly in cracks around baseboards and surfaces to be treated. Endeavor to spray directly on insects whenever possible.

**DIRECTIONS FOR RESIDUAL USE - FLIES - MOSQUITOES - GNATS and SIMILAR FLYING INSECTS:** Thoroughly wet screens, doors and window frames both inside and outside. Spray walls and ceilings, especially around and in closets, porches, attics, basements, pantries, storage containers and other places where such insects may inhabit.

## CAUTION

This spray is toxic and when in solution can be an irritant to the skin. Avoid excessive inhalation and skin contact. Always treat and breathe clothes completely before reoccupancy. Do not spray directly on food or medication. Use only as directed. Avoid contact with children. Do not use on cats, dogs, birds, fish, etc.
