

**SELCO TMTD RHOPLEX RABBIT and DEER REPELLENT** is a chemical repellent recommended for the protection of growing and dormant evergreen and deciduous trees and shrubs against damage by rabbits and deer. It has been found highly effective against rabbit damage and moderately effective against deer damage. When properly applied, a single application has afforded protection for six months or longer under severe weather conditions.

**DIRECTIONS FOR USE**

This product should be diluted with an equal quantity of water before use. (Experience has proven that luke warm water is preferred for dilution of this product.) Stir or shake well before using. Application can be made by spraying or painting, although heavier coatings are obtained through spraying. For application to larger plantings, a good quality backpack sprayer is recommended. For a few trees, a fly sprayer or window-cleaning atomizer will suffice. Use sufficient repellent to obtain a uniform coating over portions of plants to be protected. Clean spray equipment with water as soon as possible after use. To permit repellent film to properly set up, application should be made under favorable drying conditions. (Apply when temperature is above 40° F and relative humidity is below 70%.) The snow depth should be considered when applying for winter use. The number of trees or shrubs which can be protected by one gallon of SELCO TMTD RHOPLEX RABBIT and DEER REPELLENT depends upon their size. Under optimal conditions, approximately 200 deciduous trees (main stem sprayed to a height of 4 feet) and 500-1,000 evergreens (6-12 inches high) can be treated per gal. of repellent in nursery beds 2,000-6,000 coniferous seedlings can be treated per gallon. Note: Do not apply to crops to be used as feed or food.

**CAUTION**

May cause irritation of eyes, nose, throat and skin. Harmful if swallowed. Do not inhale dust or spray. Do not get in eyes or on skin. Wash thoroughly after handling. In case of contact, flush plenty of water; for eyes get medical attention.

This product is toxic to fish. Keep out of lakes, streams, or ponds. Do not contaminate water by cleaning of equipment, or disposal of wastes.

Apply this product only as specified on this label.

**NOTICE:** Buyer assumes all risk of use, storage or handling of this product when not in strict accordance with directions given herewith.
