

June 21 11/3  
 UNDER THE FEDERAL INSECTICIDE ACT  
 REGISTERED PRODUCT  
 SUBJECT  
 INVENTS.

**GENERAL DIRECTIONS**

This product is a specifically prepared insecticide for use undiluted, for control of Flies, Mosquitoes, Flying Moths, Wasps and Gnats. It can be applied as a wet coarse spray, or with paint brush for spot treatment or as a fine mist for space spraying.

**APPLICATION AROUND HOMES, PORCHES AND PATIOS**

Flies, Mosquitoes, Gnats, Flying Moths and Wasps. Apply as a coarse wet spray or apply with a paint brush to areas on outside of houses, around cracks, walls and particularly around cracks of doors and window frames. For the protection and prevention of these insects entering into human dwellings, make application as a spot treatment. Thorough and repeated application should be made to screens, window frames, door sills on porches and patios where these insects alight or congregate. For the control of Wasps, spray the nest after dark when all insects have returned to the nest.

**APPLICATION TO OUTDOOR AREAS**

For control of Mosquitoes, Flies, Gnats and Flying Moths in outdoor areas, outdoor theatres, dressings, bars, yards, communities, resorts, recreation areas, parks, playgrounds and sport areas, apply as a fog or fine mist with fogging equipment. In applying this product and later, apply 1/2 quarts per acre (for an 0.05 pound per acre dosage) and 10 qts. (for a 0.1 pound per acre dosage). Do not treat areas where food or food crops are growing.

**NOTICE:** This product is highly toxic to bees exposed to direct treatment or residues on crops. Protective information may be obtained from your Cooperative Agricultural Extension Service.

SELCO

**\*VAPONA<sup>TM</sup>**
