DIRECTIONS FOR USE

1162

1. The purpose of this report is to provide a summary of the results of the investigation conducted by the Department of the Interior, Bureau of Land Management, in the area of the proposed project.

2. The investigation was conducted in accordance with the provisions of the National Environmental Policy Act of 1969, as amended, and the regulations promulgated thereunder.

3. The results of the investigation are summarized in the following table:

Category	Findings
1. Environmental Impact	The proposed project is expected to have a significant impact on the environment, particularly in the area of water resources and wildlife habitat.
2. Cultural Resources	The proposed project is expected to have a significant impact on cultural resources, particularly in the area of historic sites and archaeological resources.
3. Socioeconomic Impact	The proposed project is expected to have a significant impact on socioeconomic conditions, particularly in the area of employment and income.

4. The results of the investigation indicate that the proposed project is likely to have significant adverse impacts on the environment, cultural resources, and socioeconomic conditions.

5. It is recommended that the proposed project be modified to avoid, minimize, and compensate for the adverse impacts identified in this report.
