

DIRECTIONS FOR USE

General Classification

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Plus 30-19 detergent-disinfectant has been developed specifically for hospitals, nursing homes, and homes of professional and other institutions where the keeping of good hygiene is of prime importance.

DISINFECT-TION To disinfect hard inanimate surfaces (such as walls, floors, tables, etc.) apply solution with mop, duster, sponge, or manual sprayer. As to wet all surfaces thoroughly. Allow to remain wet for 10 minutes and then let air dry.

DILUTION RATES: General Disinfection add 2 ounces to 16 1/2 gallons of water. Hospital Disinfection add 3 ounces to 16 1/2 gallons of water.

To disinfect towels wash with water, add 2 ounces of Plus 30-19 detergent to the last load of water. Wash the towels thoroughly. Use hot water and detergent to get under the fibers. Let stand for 10 minutes and flush.

For heavily soiled areas, a pre-cleaning step is required and recommended. Prepare a fresh solution for each use.

MILDEWSTAT To control mold and mildew on all hard surface surfaces, wash with water, then clean surface with detergent. Add 2 ounces to 16 1/2 gallons of water. Apply with a cloth, sponge or spray. Let stand for 10 minutes. Rinse with water. Let air dry. Prepare a fresh solution for each use. Repeat application at weekly intervals. Water in drains will trap mold.

SANITIZATION To sanitize previously cleaned and rinsed surfaces, prepare 20 ppm solution by adding 4 ounces of Plus 30-19 to 100 gallons of water.

Attention: Dennis C. Miller
Manager Product Development

Gentlemen:

Subject: Klemin Plus 30-10
EPA Registration No. 1363-32
Your Submission Dated May 14, 1984

The amendment referred to above, submitted in connection with registration under FIFRA sec 3(c)(7)(A), is acceptable provided that you:

1. Submit and/or cite all data required for registration/re-registration of your product under FIFRA sec 3(c)(5) when the Agency requires all registrants of similar products to submit such data.

2. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product labeling constitutes acceptance of these conditions.

A stamped copy of the labeling is enclosed for your records.

The revised Confidential Statement of Formula dated May 1, 1984, is acceptable and has been added to your file.

Sincerely yours,

Dennis C. Miller
