DIRECTIONS FOR USE

General Classification

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling

Trigonic detergent/disinfectant has been designed specifically for hospitals, offices, motels, nursing homes, schools, food processing plants and other institutions where housekeeping is of prime importance

DISINFECTION-To disinfect hard inanimate surfaces (such as walls, floors, table tops) apply solution with mop, cloth, or sponge or mechanical sprayer so as to wet thoroughly. Allow to remain wet for 10 minutes and then let air dry

DILUTION RATES-General Disinfection-add 4.5 ounce Trigonic per gallon of water. Hospital Disinfection-add 6 ounces Trigonic per gallon of water

To disinfect toilet bowls, flush toilet, add 4.5 ounces Trigonic detergent/disinfectant directly to the bowl water. Swab the bowl completely using a scrub brush or toilet mop, making sure to get under the rim. Let stand for 10 minutes and flush

For heavily soiled areas, a pre-cleaning step is required and recommended. Prepare a fresh solution for each use

MILDEWSTAT-To control mold and mildew on pre-cleaned, hard non-porous surfaces (such as floors, walls, table tops) add 4.5 ounces per gallon of water. Apply solution with a cloth, mop, or sponge making sure to wet all surfaces completely. Let air dry. Prepare a fresh solution for each use. Repeat application at weekly intervals or when mildew growth reappears

SANITIZATION-To sanitize previously cleaned and rinsed non-porous food contact surfaces, prepare 200 ppm active quaternary solution by adding 8 ounces to 5 gallons of water

To sanitize immobile items (such as tanks, chopping blocks, counter tops), flood the area with 200 ppm solution or apply with a cloth or sponge, making sure to wet all surfaces completely for at least 60 seconds. Remove and Rinse thoroughly with POTABLE WATER. Prepare a fresh solution for each use

To sanitize mobile items (such as drinking glasses, eating utensils) immerse in 200 ppm solution for at least 60 seconds making sure to immerse completely. Remove and Rinse thoroughly with POTABLE WATER. Prepare a fresh solution daily or more frequently as soil is apparent

PRECAUTIONARY STATEMENTS

Hazard to Human and Domestic Animals

WARNING

Keep out of Reach of Children. Causes eye and skin damage. Do not get in eyes, on skin or on clothing. Harmful if swallowed. Wear goggles or face shield and rubber gloves when handling. Avoid contamination of food. Remove and wash contaminated clothing.

STATEMENT OF PRACTICAL TREATMENT

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash all contaminated clothing before reuse. If swallowed, drink milk, egg whites, gelatin solution or if these are not available, drink large quantities of water. Call a Physician.

NOTE TO PHYSICIAN

Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

STORAGE AND DISPOSAL

DO NOT CONTAMINATE WATER, FOOD OR FEED BY STORAGE OR DISPOSAL

OPEN DUMPING IS PROHIBITED

DO NOT REUSE EMPTY CONTAINER

PESTICIDE DISPOSAL Pesticides that cannot be used or chemically reprocessed should be disposed of in a landfill approved for pesticides.

CONTAINER DISPOSAL Triple rinse (or equivalent) and dispose of in a landfill approved for pesticide containers.

Trigonic is a heavy duty cleanser disinfectant and designed for general household use, schools, motel kitchens, food/processing plants and light industrial applications where heavy duty cleaning is important. When used as directed, Trigonic is for disinfect inanimate hard surfaces (such as walls, floors, table tops, toilet bowls, tables, chairs and telephones) in areas, such as patient care facilities and restrooms, that are designed to aid in heavy duty cleaning disinfecting designed to aid in controlling the hazard of cross contamination in areas where heavy duty cleaning is necessary.

When used as directed, Onyx CD 1.6 will remove most dirt in a single simple application.

In addition, Trigonic deodorizes those areas which are hard to keep fresh smelling, such as garbage storage empty garbage bins and cans, toilet bowls and any other areas which are prone to odors caused by microorganisms.

DISINFECTION-At 4.5 ounces per gallon dilution, Trigonic exhibits effective disinfectant activity against the organisms Salmonella choleraesuis, Staphylococcus aureus, and Pseudomonas aeruginosa. At this level the product is also fungicidal against fungi, Trichophyton mentagrophytes.

At 6 ounces per gallon dilution, Trigonic is an effective hospital disinfectant and demonstrates disinfectant activity against Pseudomonas aeruginosa.

Efficacy tests have demonstrated that Trigonic is an effective bactericide and fungicide in the presence of organic material (e.g., blood serum).

MOLD and MILDEWSTAT- Trigonic is effective against mold and mildew and the odors they cause on hard non-porous inanimate surfaces at 4.5 ounces per gallon dilution.

SANITIZATION-When used for sanitization of previously cleaned food equipment or food contact items from quaternaries to 200 ppm. A POTABLE RINSE is required. Soiled surfaces must be pre-cleaned and rinsed thoroughly before sanitization. Trigonic is a sanitizer when diluted in water up to 500 ppm hardness.

CAUTIONARY STATEMENTS

Hazard to Human and Domestic Animals

WARNING

Caution: Causes eye and skin irritation. Avoid contact with eyes, nose, mouth, or skin. Harmful if inhaled. Use goggles or face shield and rubber gloves when handling. Contamination of food. Remove and wash clothing.

MODE OF PRACTICAL TREATMENT

In case of contact with eyes or skin, flush immediately with plenty of water for 15 minutes. For eyes, call a physician. Remove contaminated clothing before reuse. If swallowed, drink white gelatin solution or if these are not available, large quantities of water. Call a physician.

NOTE TO PHYSICIAN

Severe damage may contraindicate the use of gastric lavage against circulatory shock. Respiratory resuscitation may be needed.

STORAGE AND DISPOSAL

DO NOT CONTAMINATE WATER, FOOD OR FEED BY DISPOSAL

DISPOSAL

DISPOSAL IS PROHIBITED

IN AN EMPTY CONTAINER

DISPOSAL: Pesticides that cannot be used or repressed should be disposed of in a landfill.

DISPOSAL: Triple rinse for equivalent and generator or landfill approved for pesticide.

Trigenic is a heavy duty cleanser, disinfectant and sanitizer designed for general household use, schools, motels, offices, kitchens, food/processing plants and light industrial and hospital applications where heavy duty cleaning is of prime importance. When used as directed, Trigenic is formulated to disinfect inanimate hard surfaces (such as walls, floors, sink tops, toilet bowls, tables, chairs and telephones). For larger areas, such as patient care facilities and restrooms, the product is designed to aid in heavy duty cleaning and disinfecting. Trigenic is designed to aid in controlling the hazard of cross contamination in areas where heavy duty cleaning is necessary.

When used as directed, Onyx CD 1.6 will remove most household dirt in a single simple application.

In addition, Trigenic deodorizes those areas which generally are hard to keep fresh smelling, such as garbage storage areas, empty garbage bins and cans, toilet bowls and any other areas which are prone to odors caused by microorganisms.

DISINFECTION-At 4.5 ounces per gallon dilution, Trigenic exhibits effective disinfectant activity against the organisms: Salmonella choleraesuis, Staphylococcus aureus, and E. Coli. At this level the product is also fungicidal against Pathogenic fungi, Trichophyton mentagrophytes.

At 8 ounces per gallon dilution, Trigenic is an effective hospital disinfectant and demonstrates disinfectant activity against Pseudomonas aeruginosa.

Efficacy tests have demonstrated that Trigenic is an effective bactericide and fungicide in the presence of organic soil (5% blood serum).

MOLD and MILDEWSTAT- Trigenic controls mold and mildew and the odors they cause on hard non-porous inanimate surfaces at 4.5 ounces per gallon dilution.

SANITIZATION-When used for sanitization of previously cleaned food equipment or food contact items, limit active quaternaries to 200 ppm. A POTABLE WATER RINSE is required. Soiled surfaces must be pre-cleaned and rinsed thoroughly before sanitization. Trigenic is an effective sanitizer when diluted in water up to 500 ppm hardness (CaCO3).
