

Directions For Applied Use

Apply any time of the year except during periods of heavy frost. Best results are obtained when weeds are young and growing.

In the following rate recommendations of diluted VEG-A-KLEEN, the higher rates should be used on heavier soils, where weed growth is heavy, and where rainfall is expected to be relatively high. The higher rates should also be used where longer residual control is desired in regions with a long growing season.

SUGGESTED DILUTION RATES

For Small Areas

Light to medium Growth: Mix one gallon (1) VEG-A-KLEEN to ten gallon (10) of water.

Tall Dense Growth: Mix two gallon (2) VEG-A-KLEEN to ten gallon (10) water.

To control annual and susceptible perennial weeds such as foxtail, ryegrass, wild oats, crabgrass, cheatgrass, broom-sedge, ragweed, lambsquarter, turkey mullein, smooth brome, Canada bluegrass, purpletop, quackgrass, aster dandelion, dog fennel, goldenrod and plaintain apply a mixture of 14-21 gallons of VEG-A-KLEEN in 50-100 gallons of water per acre.

For HARD-TO-KILL perennial weeds and grasses such as bindweed, Johnson-grass, saltgrass, wild carrot, bouncing bet, bracken and horsetail fern - apply a mixture of 57-86 gallons VEG-A-KLEEN in 100 gallons water per acre.

NOTE:

Manufacturer makes no warranty expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risks of use and/or handling of this material when such use and/or handling is contrary to label directions.

Kills Vegetation — Weeds Quickly

ACTIVE INGREDIENTS:

*2,4-bis (isopropylamino)-6-methoxy	
s-triazine	8.78%
Petroleum distillate	60.97%
INERT INGREDIENTS:	30.25%

TOTAL 100.00%

*Pramitol TM Ciba-Geigy Corporation

EPA Reg. No. 1368-17

CAUTION

Harmful if swallowed. Causes skin irritation.

READ CAUTIONARY INFORMATION ON SIDE PANEL.

KEEP OUT OF REACH OF CHILDREN

General Information

VEG-A-KLEEN is a non-selective herbicide that kills all types of vegetation, including annual and perennial weeds, grasses, and shrubs. It is effective on a wide range of weeds, including foxtail, ryegrass, wild oats, crabgrass, cheatgrass, broom-sedge, ragweed, lambsquarter, turkey mullein, smooth brome, Canada bluegrass, purpletop, quackgrass, aster dandelion, dog fennel, goldenrod, and plaintain. VEG-A-KLEEN is also effective on hard-to-kill perennial weeds and grasses such as bindweed, Johnson-grass, saltgrass, wild carrot, bouncing bet, bracken, and horsetail fern. When applied to the soil, this product usually inhibits plant growth for about a year or more.

Care must be taken to keep this herbicide away from susceptible plants, such as vegetables, flowers, fruit trees, ornamentals or other desirable plants and DO NOT permit spray mists containing this product to drift onto them. DO NOT apply over roots of valuable trees, or woody ornamentals; always apply VEG-A-KLEEN herbicide outside of the free drip lines.

EQUIPMENT

Power sprayers, compressed air hand sprayers, knapsack sprayer or a standard sprinkling can may be used in applying this product.

Always flush application equipment thoroughly with clean water after each use. DO NOT STORE VEG-A-KLEEN near fertilizers, seeds, pesticides or fungicides. When using this product care should be taken to avoid contact with water. NEVER use this product in a tank. Flush with clean water and destroy when empty.

HANDLING CAUTION: Do not use pump sprayer in enclosed space or near open flame.

Cautionary Information

KEEP OUT OF REACH OF CHILDREN
Harmful if swallowed. Avoid inhalation of spray mist. Avoid contact with eyes and skin. In case of skin contact, wash with soap and water. Remove and wash contaminated clothing before re-use. Avoid contamination of food and feed.
