Directions for Applied Use

SPACE SPRAY: For rapid control, use SPRA-TOX General Purpose Spray in a good machine adjusted to deliver a fine mist. Whenever possible, vacate area, keep doors and windows closed for 10 minutes after application. Ventilate before re-occupancy. Against house flies, fruit flies, mosquitoes, flying moths and gnats: direct the spray toward the upper portions of the enclosure, filling the room with a mist and using 1/2 to 1 ounce of material to each 1000 cubic feet of space. In the control of active stages of running and crawling pests, direct the mist toward and into all places commonly inhabited by these insects, or use as space treatments for them at the rate of 4 ounces per 1000 cubic feet of space.

Crawling Insects: To control Roaches, Silverfish, Crickets, Spiders, Clover Mites, Scorpions, Cheese Mites, Cheese Skippers, Spider Beetles, use SPRA-TOX General Purpose Spray in a good machine adjusted to deliver a coarse droplet spray using approximately 1 gallon of material to each 750 square feet of surface. Spray infested areas thoroughly and direct the liquid behind baseboards, moldings, cabinets, shelves, sinks, door and window frames, and pipes, toward drains and dark corners, and into cracks, crevices, recesses and similar hiding places.

Against Ant Infestations, treat shelves, cabinets, and storage areas; spray ant runs, trails, baseboards, thresholds and other places of entry, and treat nests liberally.

To Control Bedbugs effectively, Apply liberally to top ends, sides and bottom of mattresses, spraying thoroughly all tufts, seams and folds. Spray springs and frames, directing the liquid into all cracks and lock joints. Treat walls, baseboards, moldings, floors, closets and bedroom furniture picture frames, with particular attention to protected bed-bug hiding and breeding places. Allow treated fabrics to dry before using.

To Control Carpet Beetles effectively, Apply to floor areas and baseboards. Spray directly into cracks, crevices and under carpets where insects may be found. Treat both the underside and top side of infested carpets. Spray inside of trunks, closets and infested areas of shelving.

VAPOR SPRAY: SPRA-TOX General Purpose Spray is a potent spray that permits its use as a fog or vapor treatment in special electric, steam or compressed air equipment. Use in accordance with manufacturer's directions for the individual type of applicator selected. Designs vary with efficient generators, but many such applicators are designed to give most effective results when the material is used at 1 pint to each 8,000-16,000 cubic feet of space. In all cases, dosage should be sufficient to fill thoroughly the enclosure with fog or vapor. Insects controlled will be the same as given for "Space Spray" above.

NOTE: Before spraying any area always remove pets, birds and cover fish aquariums if applicable.
EPA Reg. No. 1368-19

ACTIVE INGREDIENTS	100%
Pyrethrins	0.15%
Piperonyl Butoxide, Technical*	1.50%
Petroleum Distillate	98.35%
* Equivalent to 1.2% of (butylcarbityl) (6-propylpiperonyl) ether and to 0.3% of treated crop lands.	

CAUTION:

KEEP OUT OF REACH OF CHILDREN

Hazardous if swallowed. Do not spray near or toward an open flame. Avoid contamination of food and foodstuffs.
Do not re-enter treated areas and ventilate the area after treatment is completed.
The use of this product in food processing plants should be confined to times periods when the plant is not in operation. Foods should be removed or covered during treatment. All food processing surfaces should be covered during treatment then thoroughly cleaned before using.
This product is toxic to fish. Keep out of lakes, streams or ponds. Apply this product only as specified on this label.
Do not reuse empty drum. Destroy by perforating or crushing and burying in a safe place.

General Information

AS A CONTACT SPRAY: SPRA-TOX General Purpose Spray is also very effective when used as a contact spray against mosquitoes, gnats, wasps, hornets, skippers, spiders and cheese mites. When these insects are present contacting them with a fine mist will provide immediate kill! Spraying walls, ceilings, lights, moldings, screen doors, and door frames, beams and light cords will make these locations unfavorable as resting or hiding places for these insects.

SPRA-TOX General Purpose Spray is an effective fast acting insecticide that kills the accessible or exposed stages of:

Flies	Roaches	Spiders	Bed Bugs
Fruit Flies	Ants	Wasps	Clover Mites
Mosquitoes	Crickets	Hornets	Cheese Mites
Silverfish	Gnats	Flying Moths	

And these common STORED PRODUCT pests:

Granary Weevil	Drugstore Beetle	Angoumois Grain Moth
Rice Weevil	Carpet Beetle	Medicine Weevil
Sawtooth	Confused	Flour Moth
Grain Beetle	Flour Beetle	Indian Meal Moth
Spider Beetle	Meal Worms	Tobacco Moth
Cigarette Beetle	Grain Mites	Cheese Skippers

SPRA-TOX General Purpose Spray is highly useful for insect control in Residences, Institutions, Public Buildings, Hospitals, Hotels, Restaurants, Stores, Theaters, Food Processing Plants, Bakeries, Grain Mills, Dairies, Breweries, Bottling Plants, Warehouses, Trucks and other situations where an insecticide with a high degree of effectiveness is required.

Stored Grain or Flour Insects: SPRA-TOX General Purpose Spray is also useful in mills, elevators, granaries, warehouses, food storages, and other situations where an effective fast-acting insecticide is required for control of the exposed stages of: Granary Weevils, Rice Weevils, Sawtooth Grain Beetles, Cigarette Beetles, Drugstore Beetles, Carpet Beetles, Confused Flour Beetles, Angoumois Grain Moth, Mediterranean Flour Moth, Indian Meal Moth, Tobacco Moth, Meal Worms and Grain Mites. As a space or vapor spray, it gives rapid kills of flying and crawling stages. In cracks and crevices of floors, it is effective in the control of the grain insects.

The insecticidal components piperonyl butoxide and pyrethrins are classified as food additives, and when this product is used as directed allowable tolerance levels will not be exceeded.

For Treatment of Floors and Blinds: SPRA-TOX General Purpose Spray not only gives rapid initial kill of the accessible stages of most stored grain and food product pests, listed in the previous paragraph, but gives some continued protection in cracks and crevices where insects hide. Apply in a good machine, adjusted to deliver a coarse droplet spray using approximately 1 gallon of material to each 750 square feet of surface. Repeat applications as needed.
