Subject: Modification to the Agency's June 29, 2021 Label Amendment Letter –
Change Existing Stocks Term for Non-Forest Management Use
Cancellation Related Edits
Product Name: Saddle-Up
EPA Registration Number: 1381-255
Application Date: October 29, 2018
Decision Number: 546387

Dear Ms. Mathias:

At Winfield Solutions, LLC's request, the Agency is amending the conditions for existing stocks stated in the Agency's June 29, 2021 letter for the subject product. Specifically, that letter stated that, "As of February 22, 2021, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling," to align with the same expiration date stated in the Cancellation Order published on August 21, 2019 (FRL-9996-82), for the removal of forest management use from this product.

The approved label dated June 29, 2021, includes additional changes requested by the Agency to update the label to current standards. The requested changes were not related to the primary substantive change requested by the registrant, removal of the forest management use. Upon further consideration, the Agency is amending the expiration date for sale and distribution of the product as follows. Product bearing labels with the forest management use may not be sold or distributed after February 22, 2021. Product bearing labels with the forest management use removed but without the additional changes included in the June 29, 2021 letter and corresponding stamped label may be sold or distributed until December 29, 2022. After December 29, 2022, the product may only be sold or distributed if it bears the new revised labeling approved in the June 29, 2021 letter, or subsequently approved labeling.

Paragraph 2 of the Agency's June 29, 2021 letter is hereby amended to read:

"A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. Although the Cancellation Order published on August 21, 2019 (FRL-9996-82) declared that EPA has previously approved the label containing this use deletion, the amended label is being approved with this letter. As of

February 22, 2021, you may only distribute or sell this product if it bears this new revised labeling, or previously approved labeling with the forest management use removed, or subsequently approved labeling.

In accordance with 40 CFR 152.130(c), you may distribute or sell this product under previously approved labeling until December 29, 2022, if the label excludes forest management use. After December 29, 2022, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3."

If you have any questions, please contact me at ondish.mindy@epa.gov or at (703)605-0723.

Sincerely,

A handwritten signature in cursive script that reads "Mindy Ondish".
