### **USE DIRECTIONS:**

For light duty cleaning, sanitizing and deodorizing, use 2 ounces per gallon.

For heavy duty cleaning and disinfecting and fungicidal activity against pathogenic fungi, use 4.5 ounces per gallon.

For best results, use Gamma-Mene II with a cloth or mop and apply to walls, floors and other hard surfaces. If used for sanitization of food contact items, limit the level to 200 ppm of quaternary (8 ounces per 5 gallons).

For extra heavy industrial cleaning and sanitizing, use a second application.

Do not mix with soap or anionic solutions.

Gamma-Mene II is non-corrosive in use dilutions on inanimate hard surfaces.

#### PHENOL COEFFICIENTS:

Causes eye and skin damage. Do not get in eyes, on skin or on clothing. Protect eyes and skin when handling concentrate. Harmful or fatal if swallowed. Avoid contamination of food. See antidote statement on right panel.

### THE WICHITA BRUSH & CHEMICAL CO.

1040 S. Santa Fe — Wichita, Kansas 67211

Gamma-Mene II is a heavy duty cleaner and disinfectant designed for general purpose use where heavy duty cleaning and sanitizing is of prime importance. When used as directed, Gamma-Mene II will remove most household dirt and grime in a single, simple application. When used for industrial cleaning, follow the use directions shown on the left side panel.

Not recommended for Pseudomonas aeruginosa.

For sanitization of food processing equipment or food contact items, limit the active quaternary to 200 ppm. At this level No Potable Water Rinse is required.

#### FIRST AID

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash all contaminated clothing before reuse. If swallowed, drink milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Call a physician.

Rinse empty container thoroughly with water and discard.
