

window frames, base of foundation walls, and other places where the mites may enter the house. Repeat as necessary. Do not apply spray to vegetation.

CAUTION

HARMFUL IF SWALLOWED, INHALED, OR ABSORBED THROUGH SKIN. Avoid breathing of spray mist; provide adequate ventilation of area being treated. Apply as a surface spray only. DO NOT USE FOR SPRAYING INTO AIR IN ANY AREA. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after using. Do not smoke or eat while using. Do not contaminate food preparation areas, utensils, feed, water, and foodstuffs. If illness occurs following use, get medical attention promptly. Note to Physician: Atropine is antidotal.

Do not spray directly onto the skin of persons or animals. Remove birds and pets and cover fish bowls and aquaria before spraying in a room. Do not apply to plants. Do not allow children or pets to contact treated surfaces until thoroughly dry. Do not spray for more than 1½ minutes in any average room.

Do not use, pour, spill or store near heat or open flame. Do not store with or near feed or food products.

DESTROY EMPTY CONTAINER. Do not reuse this container for any purpose. When container is empty, place in refuse materials which will be hauled promptly to a land-fill dump where it will be buried.

NOTICE

Use only for the purposes and in compliance with the limitations, cautions or warnings stated on this label.

UNICO Ant and Roach Killer

DIRECTIONS FOR USE

HOW TO USE—Apply as a coarse wet spray or with a paint brush to the surfaces of limited areas or spots where cockroaches, ants, silverfish, crickets, and spiders are observed to run or may be hiding. Apply so infested surfaces are lightly and uniformly wet, moving rapidly to prevent excessive wetting of surfaces. Direct the spray away from persons, pets, and plants.

Avoid excessive wetting of asphalt tile, rubber, and plastic materials. Do not apply to draperies, upholstery, wallpaper, or similar materials which may be stained. Plastic sprayers may be damaged if in contact with the solution for extended periods; remove plastic sprayers from contact with the solution and clean thoroughly after each use.

ANTS—Apply to ant trails, around door sills and window frames, and wherever ants enter the house. Repeat as required.

COCKROACHES, WATER BUGS—Apply spray thoroughly to localized areas wherever insects might be hiding such as along baseboards, cracks and seams in floor, under and behind sinks, cupboards, cabinets, refrigerator, and around pipes and drains. When driven out of hiding, spray directly onto the insects. Repeat as necessary.

SILVERFISH, CRICKETS, AND SPIDERS—Apply spray to localized areas where these pests occur. Repeat as required.

CLOVER MITES (In Residences)—Apply spray lightly to surfaces of interior infested areas and to outside surfaces of screens, doors,
