Apply 1 when new growth starts in the spring, (2) at subsequent 7 to 10 day intervals as needed. DO NOT APPLY WITHIN 7 DAYS OF HARVEST.

**CAUTION**

HARMFUL IF INHALED OR SWALLOWED may cause irritation of skin, eyes, nose, throat or lungs, avoid contact with or breathing of dust. Wash thoroughly after handling and before eating or smoking. Take shower or bath after work; change clothing.

This product is poisonous to fish or wildlife. Keep out of any body of water. Do not apply to crops or areas other than those stated in this label and not when weather conditions favor drift of dust from area treated. Clean application equipment and dispose of wastes and unused chemical in a safe non-crop area well away from water supplies. Avoid contamination of feed and foodstuffs.

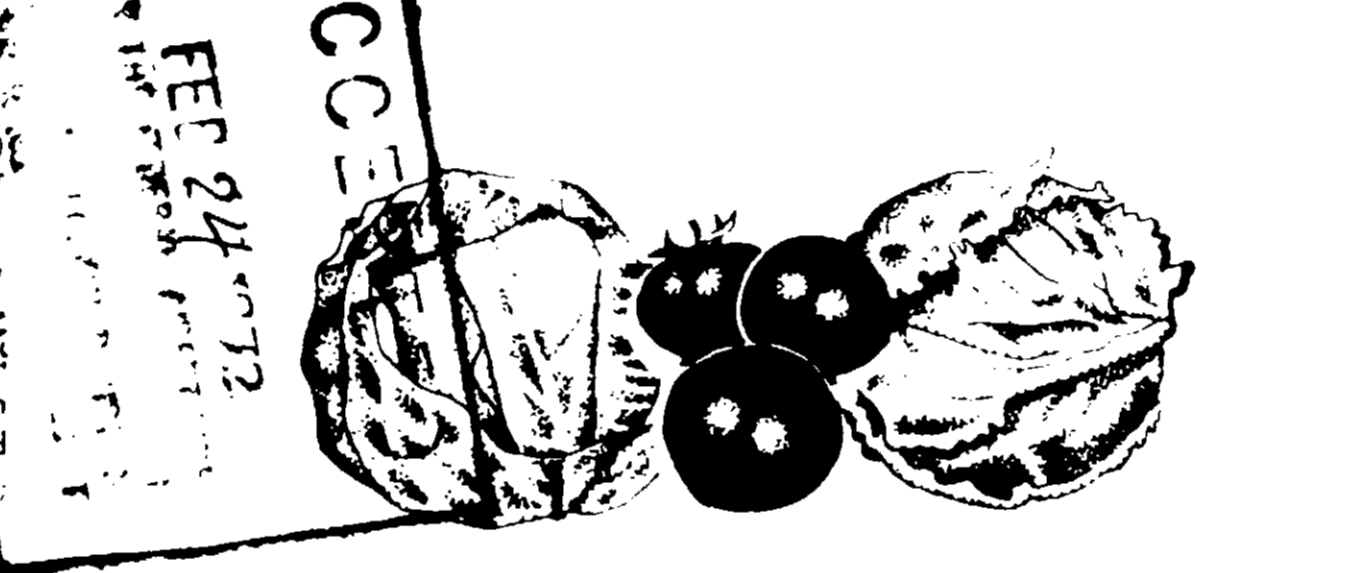

**DESTROY EMPTY CONTAINERS.** Do not reuse this container for any purpose. Destroy container in compliance with local regulations; if burned, stay away from smoke.

**BEES** — This product is highly toxic to bees exposed to contact treatment. Do not apply to blooming crops. Protection information can be obtained from your Cooperative Agricultural Extension Service.

**NOTE FOR PETS:** IAN is a highly to moderate toxicity to cats and dogs. Antidote: Atropine

**NOTICE**

Use only in the manner and in compliance with the directions on the label. For more information on this label.

**INGREDIENTS**

<b>ACTIVE INGREDIENTS:</b>	
Carbaryl (1-naphthyl N-methylcarbamate)	3.0%
Zineb (zinc ethylene bisdithiocarbamate)	3.2%
Ziram (zinc dimethyl dithiocarbamate)	3.8%
Rotenone	1.0%
Other cube resins	1.6%
<b>INERT INGREDIENTS</b>	
Total	100.0%

**DIRECTIONS FOR USE**

Use on crops listed below to control the insects and plant diseases indicated. Begin applications before diseases are apparent and before insects become numerous which is usually when the seedlings appear above ground or young plants are transplanted to the garden. Repeat applications at 5 to 7 day intervals and after heavy rains to maintain protection during growing season. Cover foliage both upper and lower surfaces evenly and thoroughly with a light film of dust when air is calm. Apply at the rate of 35-40 pounds per acre (1 lb. per 1,000 sq. ft. or 1 lb. per 1,000 linear feet of row). Excessive application may cause scalding of tender foliage.

**CROPS, INSECTS, AND PLANT DISEASES**

**BEANS** — Aphids, anthracnose, white mold, Mexican bean beetle, bean leaf beetle, leafhoppers. DO NOT APPLY WITHIN 7 DAYS OF HARVEST.

**BROCCOLI, CABBAGE, CALIFLOWER AND KALE** — Imported cabbage worm, diamond back moth larvae, Harlequin bug, and downy mildew. DO NOT APPLY WITHIN 7 DAYS OF HARVEST.

**CARROTS** — Flea beetles and leafhoppers, early blight. DO NOT APPLY WITHIN 7 DAYS OF HARVEST IF TOPS ARE TO BE USED AS FOOD OR FEED OTHERWISE DO NOT APPLY WITHIN 1 DAY OF HARVEST.
