UNICO SNAIL AND SLUG BAIT

This product properly applied as directed attracts and kills snails and slugs. These pests are active primarily during the night. They hide during the day in moist, cool places such as flower beds and vegetable gardens, around fences and under hedges and bushes. Their presence usually can be detected by the mucous-like trails on the ground.

To control snails and slugs in asparagus, beans, cabbage, carrots, celery, cucumbers, eggplants, melons, peppers, squash, spinach, strawberries and tomatoes, in tobacco plant beds and around ornamental plants, distribute the bait lightly and uniformly on the ground around the plants. Apply at the rate of 1 pound per 1,000 to 1,200 square feet in small gardens, or 40 to 50 pounds per acre in large areas. If the soil is dry, sprinkle or irrigate until wet, either before or shortly after applying the bait. Make first application at beginning of planting season—before the pests cause serious damage—and repeat at 7 to 14-day intervals, particularly during spring and summer, or as necessary to maintain control.

APPLY TO THE SOIL ONLY. DO NOT APPLY DIRECTLY ON OR IN CONTACT WITH, PLANTS. Keep away from children, domestic animals, and poultry. This bait may be attractive to dogs. Keep dogs off treated areas.

Remove boards, bricks, large rocks, trash piles, and other materials which might provide shelter or snails and slugs as distinct aid in their control.

MAY BE FATAL IF SWALLOWED! Avoid contact with skin, eyes, or clothing. Wash thoroughly after use. Avoid breathing vapor or dust. Avoid contamination of feed and foodstuffs.

This product is poisonous to fish and wildlife. Keep out of any body of water. Do not apply in any manner not specified in this label. Clean application equipment and dispose of rinsing solutions and unused chemical in a pit or non-crop land located well away from water supplies.

Birds feeding on treated areas may be killed.

DESTROY EMPTY CONTAINERS. Do not reuse this container for any purpose. Burn empty containers (paper) in a hot fire outdoors in an isolated area. The smoke is hazardous. Stay well away from the smoke.

Use only for the purposes and in compliance with the limitations, cautions, and warnings stated on this label.
