

## UNICO Vapona Dairy Spray

### DIRECTIONS

Apply UNICO VAPONA DAIRY SPRAY as a mist spray with hand or automatic sprayer for control of face flies, stable flies, house flies, gnats and mosquitoes.

### USE AS AN ANIMAL SPRAY

On dairy cows, beef cattle, and horses, apply 2 fluid ounces of UNICO VAPONA DAIRY SPRAY to each animal each day. The mist spray should be applied with a good hand or automatic sprayer. Spray to wet hair. For maximum results apply the 2 fluid ounces in 2 applications—1 ounce morning and night. Special care should be used to assure coverage of the legs, belly, shoulders and head.

In a complete fly control program this spray should be used in conjunction with an insecticide fog or surface spray and sanitary measures.

UNICO VAPONA DAIRY SPRAY is designed primarily for use as an animal spray to protect dairy cattle, beef cattle, and horses from face flies, stable flies, house flies, horn flies, gnats, and mosquitoes. It is also a very effective fog or surface spray and will provide fast knock down and kill of flies, mosquitoes and certain other small flying insects

### USE AS BARN FOGGER

UNICO VAPONA DAIRY SPRAY can be used in barn fogging equipment without dilution. One pint will fog 8,000 cubic feet.

Before applying, remove animals and reduce air movement as much as possible by closing doors, windows, and other openings. Do not treat animals or humans. Do not contaminate water, feed, or foodstuffs. Do not contaminate milk or milking utensils. Ventilate before allowing animals to re-occupy treated buildings. **DO NOT USE THIS SOLUTION FOR FOGGING PURPOSES WITHIN 8 HOURS OF DIRECT SPRAY TO ANIMALS**

# VAPONA\* DAIRY SPRAY

For Use on Lactating Dairy Cattle, Beef Cattle, and in Barns

### ACTIVE INGREDIENTS:

\*\*2,4-Dichlorovinyl Dimethyl Phosphate ..... 0.93%

## USE AS BARN SPRAY

For DAIRY BARNS, MILK SHEDS, HORSE BARNS, SHELTER SHEDS AND OUTDOOR AREAS: Dilute UNICO VAPONA DAIRY SPRAY with equal amounts of deodorized kerosene or fuel oils. Apply as a coarse wet spray at the rate of one quart per 1,000 square feet to walls, ceilings, stalls, feed storage rooms, alleyways, pig pens, milk sheds, and loafing areas. In poultry houses apply to manure, window sills, and outside of penned enclosures. For fly and maggot control in breeding areas, such as dumps and manure piles apply at the rate of 1 to 2 quarts of diluted mixture per 100 square feet. The diluted mixture may be used to treat outdoor living areas, picnic grounds, and patios.

## WARNING

May be fatal if swallowed, inhaled or absorbed through the skin. Wash thoroughly with soap and water after handling and before eating or smoking. Do not contaminate feed, water, milk or milk handling equipment. If swallowed, induce vomiting immediately and get medical attention. Atropine is antidotal.

DO NOT USE, POUR, SPILL OR STORE NEAR HEAT OR OPEN FLAME.

This product is toxic to fish and wildlife. Keep out of lakes, streams or ponds. Do not contaminate water by cleaning of equipment or disposal of wastes.

DESTROY EMPTY CONTAINERS. Do not reuse this container for any purpose. Punch holes in top and bottom of metal containers, crush under wheels of heavy vehicle or crush with an axe, and bury crushed containers in a pit on non-crop land well away from water supplies.

## NOTICE

Use only for the purpose and in compliance with the limitations, cautions or warnings stated on this label
