**PRECAUTIONARY STATEMENTS  
 HAZARDS TO HUMANS (AND DOMESTIC ANIMALS)**

**WARNING!**

**KEEP OUT OF REACH OF CHILDREN.  
 HARMFUL OR FATAL IF SWALLOWED  
 OR ABSORBED THROUGH SKIN.  
 CAUSES EYE AND SKIN IRRITATION.**

Penta 19-1 contains KETONE SOLVENTS. Keep contents and freshly treated articles away from flame, food and living plants. Do not use, pour, spill or store near heat or open flame. Use only in well-ventilated areas. Do not breathe vapor or spray mist. Do not get in eyes or on skin or clothing. Wear rubber gloves and protective clothing when applying or handling freshly treated articles.

**FIRST AID:** If on skin, wash with soap and water. Remove and wash contaminated clothing before reuse. If in eyes, immediately flood with water for at least 15 minutes. Call a physician. If swallowed, give 1 or 2 glasses of water and induce vomiting by touching back of throat with finger or blunt object. Do not induce vomiting if given anything by mouth to a child or a pet. Call a physician.

**ENVIRONMENTAL HAZARDS**

This product is toxic to fish and wild life. Keep out of lakes, streams or ponds. Do not pollute water by cleaning of equipment or disposal of waste.

**STORAGE AND DISPOSAL**

Do not use or store inside the home. Do not reuse empty container. Wrap container and put in trash collection.

**DIRECTIONS FOR USE**

Apply this product only as specified in this label. It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**USES — After Dilution**

Penta can be used to preserve the life of fence posts, utility poles and guard rails from decay, termite, wood-boring insects, mold and powder post beetles. Do not use for interior treatment of wood that will be finished in any place where indoor air quality may be affected. Do not use where treated surfaces will come in contact with food or skin.

**PREPARATION**

Allowing, gluing and sanding should be done before applying Penta. Wood should be dry and free of moisture. Recommended mixture for prescribed label results is one gallon of Penta to 10 gallons of fuel oil or light kerosene. This will make 11 gallons of preparation, supply 1/2 to 5/8 dry weight of Penta to product.
