

SYN-PINE 5

Disinfectant

Contains Pure Steam Distilled Pine Oil

Phenol Coefficient 5 against S. Typhosa (A.O.A.C. Method)

Forms milky white emulsion upon the addition of water

Active Ingredients:

Pine Oil

Isopropanol

Soap

Sodium salt of orthobenzylparachlorophenol

Inert Ingredients: 68.0%

Water

Sodium nitrite

DIRECTIONS:

FOR GENERAL SANITATION, such as washing floors, commodes, bath tubs, sinks or bedpans, use 1 part SYN-PINE 5 to 99 parts of water (about 3/4 cup in 2-1/2 gallons of water). Wet all surfaces. For charging cuspidors, use 2 tablespoons of SYN-PINE 5 per cup of water.

At a dilution of 100 to 1, SYN-PINE 5 passes the A.O.A.C. Use-Dilution Confirmation Test against Salmonella choleraesuis; it meets A.O.A.C. specifications for household, janitorial and other non-medical uses.

CAUTION (14 pt.): Keep out of reach of children (10 pt.)
Avoid contamination of feed and foodstuffs. Disinfectant may cause skin irritation. Avoid contact of material with skin.

ANTIDOTES:

External: In case of contact, flush with plenty of water; for eyes get medical attention.

Internal: If swallowed give raw egg white, milk, mucilage or cornstarch paste and follow with emetic of mustard. Call a physician.

U.S.D.A. Registration No. 1416-20
