19%

- Sodium 4-and 6-chloro 2-phenylphenate
- Steam distilled pine oil
- Isopropanol
- Vegetable oil potash soap

INERT INGREDIENTS:

Water

81%
100%

Total

DIRECTIONS

For maximum efficiency clean surface well before applying disinfectant solution.

Put disinfectant in a pail, adding water and stirring. Use warm water when possible.

For general disinfectant against *S. typhosa*, apply a solution of 1 part Disinfectant to 100 parts water. Let remain on surface as long as possible for maximum disinfection.

URINALS AND TOILETS: To be cleaned daily with a solution of 1 to 100.
KENNELS—STABLES—CHICKEN HOUSES—ETC.: Clean thoroughly and remove all deposits with a solution of 1 to 100. Either mop or spray entire area.

CUSPIDORS—HARD SURFACE AREAS: To be mopped with a 1 to 100 solution. Leave a small amount in sputum receptacles.

GENERAL CLEANING: Pine Odor Disinfectant has an exceptional cleaning action. One teacup to a pail of water not only cleans but deodorizes.

Cameraman's Note

Poor Copy

CAUTION

Keep out of reach of children.

Harmful if swallowed. Antidote if taken internally: Give milk, white of raw eggs, mucilage or cornstarch, and follow with an emetic such as a tablespoon of mustard in a tumbler of warm water.

May cause skin irritation. Avoid contact with skin. Wash thoroughly after handling.
