

FEATURES, CLAIMS, AND USES

Kills many odor-causing bacteria often found in public and residential areas, industrial and institutional facilities, public transportation, and waste storage and processing areas, and which are sources of malodors.

Cleans and disinfects/deodorizes the natural way. Contains NATURAL PINE OIL and leaves a clean, pleasant, fresh, natural pine fragrance.

Use first to clean, then to disinfect/deodorize non-porous surfaces in industrial and institutional facilities, home and residential areas, schools, public facilities, offices, stores, factories, cars, trucks, buses, trains, planes, and ships. Use to clean and disinfect bathroom surfaces, fixtures, and furniture such as toilets, urinals, bathtubs, shower stalls, sinks, railings, fixtures, partitions, woodwork, chairs, beds, floors, walls, and ceilings. This cleaning and disinfecting helps reduce unpleasant bacteria-caused putrefactive odors in these areas.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER Harmful if swallowed. Irritates eyes and skin. Do not get concentrate in eyes or on skin or clothing. Wear goggles, gloves, and dust mask and rubber gloves while handling concentrated material. Immediately remove any contaminated clothing, jewelry, etc., and wash it before reuse.

Avoid contamination of foods, drinking water, drinks, or feeds, or any surfaces or equipment that they may contact.

STATEMENTS OF PRACTICAL TREATMENT

QUICKLY follow directions below AND call a Poison Control Center, emergency department, or physician. Always get quick medical attention for ALL effects, which continue (or show up later).

IF IN EYES IMMEDIATELY flush eyes with plenty of water, while removing any contact lenses, then flush eyelids open and continue flushing for at least 15 minutes. Get immediate medical attention.

IF SWALLOWED IMMEDIATELY rinse conscious person's mouth with water, spit out, then drink a glassful or more of water. Do not induce vomiting. Get immediate medical attention.

IF ON SKIN, CLOTHING, ETC. IMMEDIATELY remove any contaminated clothing, shoes, jewelry, etc., thoroughly clean them before reuse. Wash affected skin with soap and water.

PINE ODOR DISINFECTANT

[Phenol Coef. 5]

LIMITED DISINFECTANT AGAINST ODOR-CAUSING BACTERIA

DISINFECTS/DEODORIZES AND CLEANS

ACTIVE INGREDIENTS:

Sodium 2-benzyl-4-chlorophenol 5.0%
Pine oil 5.0%

INERT INGREDIENTS* 90.0%

TOTAL 100.0%

*Includes potash soap and isopropanol

KEEP OUT OF REACH OF CHILDREN. DANGER

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

FOR GENERAL CLEANING, AND FOR DISINFECTING AGAINST ODOR-CAUSING BACTERIA: Dilute 1 1/2 fl oz of this product to 1 gal (10 mL/L) with water in a clean container. Use warm water when possible, as this increases disinfecting activity. Avoid using hard water, which reduces activity. First, thoroughly clean all surfaces with this solution, including bathroom surfaces, fixtures, and furniture. Then, to disinfect all hard, non-porous, clean surfaces, apply fresh solution to them with a clean mop, towel, cloth, sponge, sprayer, or other applicator until they are thoroughly wetted. For complete disinfection, allow treated surfaces to remain undisturbed for at least 10 minutes.

FOR CLEANING AND DEODORIZING IN SCHOOLS, FACTORIES, PUBLIC BUILDINGS, PUBLIC TRANSPORTATION, ETC.: Dilute 1 1/2 fl oz of this product to 1 gal (10 mL/L) with water in a clean container, and use for mopping and spraying in all rooms, hallways, stairways, walls, floors, lockers, seating, and other areas.

FOR CLEANING AND DEODORIZING GARBAGE AND REFUSE CONTAINERS, TRASH AND RUBBISH PILES, AND OUTDOOR AND PORTABLE TOILETS: Dilute 2 fl oz of this product to 1 gal (16 mL/L) with water. Use this solution to clean and deodorize hard surfaces. Can also be used to help deodorize porous materials when applied by wiping, spraying, or sprinkling. This cleaning/deodorizing action helps to reduce the attraction of these areas for flies and other pests by removing their food and its odors.

STORAGE AND DISPOSAL

GENERAL. Do not contaminate other materials, including drinking water, drinks, foods, or feeds, during transport, use, storage, or disposal. If damaged, leaking, or spilled, soak up and wrap waste, then dispose of as below.

STORAGE. Keep in upright, tightly closed original container in a cool, dry, locked area inaccessible to children and away from flames, sparks, sunlight, other chemicals, or other sources of ignition, heat, degradation, or contamination.

DISPOSAL: Do not reuse empty container. Rinse original container thoroughly, then securely wrap in several layers of newspaper and discard in trash.
