PHENOL COEFFICIENT 5

A.O.A.C. METHOD

CLEANS

DEODORIZES

SANITIZES

## ACTIVE INGREDIENTS:

Pine Oil  
Isopropanol  
Sodium O-benzyl  
p-chlorophenol  
Potassium Oleate  
Diethanolamine Salt  
of Lauric Acid

## INERT INGREDIENTS

Water

64.9%

By following dilution directions, floors and other surfaces are cleaned, sanitized and deodorized in the same operation, making for economy in money, time and labor.

## DIRECTIONS

**FOR ROUTINE CLEANING:** Mop with a solution of 4 oz. cleaner per gallon of water, wetting surface thoroughly and allowing solution to work a few minutes. Pick up with a clean damp mop or squeegee. Scrubbing machines may be used satisfactorily with this solution.

**FOR CLEANING AND DISINFECTING:** Mop with a solution of 4 oz. Cleaner and Sanitizer per gallon of water, wetting surface thoroughly. Allow to stand 5 minutes. Remove with a clean damp mop or squeegee.

## CAUTION

KEEP OUT OF REACH OF CHILDREN

Continued exposure of skin to solution of this product may cause skin irritation or discomfort therefore use of a mop or scrubbing machine is recommended.

Harmful if swallowed. Avoid contamination of foodstuffs. In case of spillage on skin, wash immediately with soap and water.

Do not get in eyes.
