

DIRECTIONS:

URINALS: To clean and disinfect: Put swab mop in urinal over trap and saturate mop with bowl cleaner. Thoroughly wet entire surface of urinal with bowl cleaner, taking care to swab at water outlet, at top of urinal and into all grooves. Remove screen at trap and pour 2 to 4 ounces of bowl cleaner around opening of drain and into outlet. Reach swab down into drain. Rinse by thoroughly flushing. Urinal drains which cannot be disassembled and manually cleaned cannot be disinfected. Use above directions for deodorizing only.

TOILET BOWLS: To clean and disinfect: Drain water from bowl. Place swab mop in bowl and saturate mop with 2 to 4 ounces of bowl cleaner. Swab over entire inside surface of bowl, especially covering under rim of bowl. Rinse by flushing toilet thoroughly. Rinse mop when finished.

DO NOT USE ON WASH BASIN OR BATH TUBS

Do not use on sinks, bath tubs, or any surface except toilets and urinals.

EMULSION BOWL CLEANER

**CLEANS
DISINFECTS - DEODORIZES**

**Aids in

DANGER

Keep out of the Reach of Children.

ANTIDOTE:

Corrosive: Keep Out of Reach of Children. May be fatal or harmful if swallowed. Do not breathe vapor or fumes. Produces chemical burns. Do not get in eyes, on skin, or on clothing.

If swallowed—call a physician immediately. Drink a teaspoonful or more of milk of magnesia or a cup of soapy water followed with milk or raw egg whites.

Eye contact—Wash with water for 15 minutes. Get prompt medical attention.

Skin contact—Wipe off the acid gently, immediately flood the surface with water, using soap freely, then cover with moist magnesia or baking soda.

Rinse empty container with water before disposing. Wipe up any spillage and rinse surface. Do not burn container.
