CENTER PANEL

This product is a Sanitizing and Disinfecting Agent. It rinses free and has powerful penetrating properties. Non-film forming on dishes or glasses.

This is a concentrated germicide and must be diluted to the effective concentration before use.

This product contains its own built-in indicator of Germicidal strength. Diluted (Use) solutions are germicidal as long as the characteristic YELLOW color is evident in the solution. When the color disappears or fades, the solution must be either replaced or replenished.

In use dilution this product is Non-staining and Non-corrosive to inanimate surfaces. It is an effective cleaning agent, practically odorless and virtually tasteless.

In concentrated form this product is stable over long periods of storage.

USAGE

DO NOT USE IN COMBINATION WITH ANY OTHER SOAP, CLEANER, OR SANITIZER.

SANITIZING ONLY: As sanitizing rinse, use 1 ounce per gallon of water.

AS GENERAL DISINFECTANT: For cold storage rooms, walls, floors, toilet seats, bath tubs, sick rooms, use 1 ounce per gallon of water. Apply by mopping to wet surfaces thoroughly.

AS DISINFECTANT IN HOSPITALS & INSTITUTIONS: For rooms and equipment after surfaces have first been cleaned, wipe with a solution prepared from one ounce of concentrate diluted to one gallon with water until surface is thoroughly wet. Wherever heavy organic residues are present, a preliminary cleaning with this same dilution may be required.

CLEANING AND DISINFECTING: In one operation use 1 ounce per gallon. All food contact areas must be rinsed with potable water before reuse.

FOOD PREPARATION: Wash hands with a solution of 1 ounce per gallon of water. Wash dishes and glasses with a detergent. Rinse thoroughly with potable water.

CLEANING AND DISINFECTING: In one operation use 1 ounce per gallon. All food contact areas must be rinsed with potable water before reuse.

RIGHT PANEL

ADDITIONAL USES:

SANITIZATION OF Glasses, Dishes and Cutlery; equipment and utensils in Dairy Plants; Equipment in Beverage Plants and Breweries. Use 1 ounce per gallon of water. Wipe in a manner so as to wet all surfaces thoroughly. Food contact areas must be rinsed with potable water before reuse.

DETERGENT-SANITIZER on the milk-farm. SANITIZATION of walls, floors, and garbage cans. Scrub thoroughly with a solution of 1 ounce per gallon of water in such a manner as to wet all surfaces thoroughly.

DISINFECTION OF NON-POROUS SURFACES such as instruments, thermometers, catheters, rubber goods and the like; combs and brushes; terminal disinfectant in sickrooms, hospitals, etc. Remove all adhering blood and serous exudates prior to immersion in, or treatment with the disinfecting solution. Use 1 ounce per gallon. A submersion time of 10 minutes is required. Rinse food contact areas with potable water before reuse.

CAUTION (18 pt)

KEEP OUT OF REACH OF CHILDREN (12 pt)

Avoid contact with skin and eyes. In case of contact, flush with plenty of water. If eye irritation persists, get medical attention.

Avoid contamination of food.

Rinse empty container thoroughly with water and discard it.
