

[1421-127]

Contains 20% Lethane 384

HOCH
LETHANE 20

Quick Kill Insecticide

ACTIVE INGREDIENTS:		100 %
Petroleum Distillates	90 %	
Beta-butoxy beta'thiocyano diethyl ether	10 %	
Total	100 %	

DIRECTIONS

Flies, mosquitoes, gnats; Dilute 1 gallon with four gallons odorless base oil. Direct spray at ceiling and fill room with fine mist. Let room stay closed for 15 minutes before airing. Sweep up and burn all fallen insects. Repeat as necessary.

Roaches, waterbugs, silverfish: Spray thoroughly into cracks and crevices, under and behind sinks, cupboards, drawers, woodwork, refrigerators, pipes and drains where insects occur. Spray directly on as many insects as possible. Repeat application as required.

Ants, fleas; Spray ants repeatedly as required. Pay particular attention to ant trails, and areas around door sills and window frames. Also treat openings around water pipes, heat ducts, baseboards, where insects may enter room. To kill fleas, spray thoroughly floors, rugs, lower walls, basements, sleeping quarters of animals and other infected areas. Repeat applications as necessary.

FOR FOGGING (Outdoor use only) Mix 1 gallon of Lethane 20, 1 gallon of 30% Malathion and 18 gallons of base oil. This makes 20 gallons of finished spray. Apply with a Dynafog or similar apparatus for control of flies, mosquitoes, and certain small flying insects around fields, vacant lots, trash dumps, and similar areas. Apply uniformly at rate of 18 gallons finished spray per acre. When treating areas where people congregate or work, apply several hours in advance.

CAUTION

KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. Avoid inhalation and skin contact. Avoid contamination of feed and food stuffs.

Flammable. Do not store, pour, or mix near open flame or pilot light. Do not smoke while spraying.
