

[1421-136]

# VAPO-CIDE 400

## CONCENTRATED AA FLY SPRAY

### ACTIVE INGREDIENTS:

100%

Refined Petroleum Hydrocarbons\*  
Piperonyl butoxide technical\*\*  
Pyrethrins

\* Wartox Solvent Spec. 10-3

\*\*Consists of (butylcarbityl) (6-propylpiperonyl) ether and other related compounds.

### DIRECTIONS:

May be diluted with equal parts solvent or use as is.

**For controlling Flies, Mosquitoes, Gnats:** Close windows and doors. Spray toward ceiling in all directions. Leave room closed for ten or fifteen minutes. It is frequently desirable to sweep up and destroy the fallen insects at the close of the ten minute period. Re-open windows and doors and let fresh air in before occupying.

**For Ants:** Spray freely and directly on insects if possible. Then spray around baseboards, doors, sills, and window frames where pests may enter premises.

**For Fleas:** Use same directions as for ants. In addition, spray frequently the sleeping quarters of animals.

**For Use in Air Vaporizers or Aerosol Sprayers:** Follow instructions given on particular type unit to be used.

## CAUTION:

### KEEP OUT OF REACH OF CHILDREN

Combustible mixture. Do not use near an open flame. Do not smoke while spraying. Avoid contamination of foods. If spilled on skin, wash with soap and water. Harmful if swallowed.

Use the product as a space spray in food processing plants only when plant is not in operation. Foods should be removed or covered during treatment. All food processing surfaces should be covered or thoroughly cleaned before using.
