

KEM SUPERQUENCH NON-SELECTIVE WEED KILLER

For use against Johnson grass, Quack grass, Bermuda grass, Poison Ivy, Poison Oak, Bindweed, Canada Thistle, Sandburr, and similar weeds in non-crop areas as fence rows, drainage ditchbanks, around buildings, along roadsides, power lines, right of way and other waste areas.

ACTIVE INGREDIENTS:

Sodium Chlorate 18%
Sodium Metaborate Anhydrous 6%

INERT INGREDIENTS: 76%
TOTAL 100%

DIRECTIONS USE

ANNUAL WEEDS: Apply one gallon (diluted to 10 gallons of water) per 150 to 200 square feet when plants are young. Thoroughly wet with a sprayer or sprinkling can, all parts of the plant, particularly the growing tips.

PERENNIAL WEEDS: For the best results treat plants during their dormant stage or when nearing maturity. Good results are obtained with Spring application, but Summer applications are not recommended. Apply by spraying 1 to 2 gallons per 100 square feet. For deep rooted weeds and grass, such as Bermuda, Johnson, Bindweed and Quack grass the heavier rate is recommended. Re-treatment may be necessary to secure adequate control of certain hard-to-kill weeds.

NOTE: This material is non-selective and affects all types of vegetation. Extreme care should be exercised in its use. Do not use on lawns or desirable plants or on soil underlaid by roots of desirable plants or where product may leach to desirable vegetation. This includes areas which may be underlaid by tree roots. Due to the varied conditions of weather, soil, types of vegetation, location and time of applications, the manufacturer does not guarantee complete kill of vegetation or accept responsibility for its use or misuse.

CAUTION

KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. Avoid contamination of feed and food products.

Do not contaminate water used for humans, domestic animal consumption, or for irrigation. Keep away from domestic animals. Do not contaminate streams containing fish or used by wildlife.

Do not reuse empty container. Destroy it by perforating or crushing. Bury or discard in a safe place.
