

FOR USE BY TRAINED PERSONNEL ONLY

Contains Malathion for Rapid Kill of Resistant Insects.

Quickly knocks down and kills resistant insects, flies, mosquitoes, wasps, gnats, roaches, waterbugs, ants and spiders.

ACTIVE INGREDIENTS:

Aromatic Petroleum Distillate	67.00%
Malathion (O,O-dimethyl dithiophosphate of diethyl mercaptosuccinate)	30.00%
2,2-dichlorovinyl dimethyl phosphate (DDVP)93%
Related Compounds07%
INERT INGREDIENTS:	2.00%

DIRECTIONS

This is a highly concentrated material and should be diluted before fogging by mixing 1 gallon of the concentrate with 50 gallons of kerosene, fuel oil, mineral seal or horticultural base oil.

For outdoor space spraying and reduction of airborne insect populations: For flies, mosquitoes, wasps and gnats, disperse with fogging apparatus, smoke generator, or pressure sprayer. Fog at rate of 10 gallons of 1:50 dilution per acre.

FOR OUTDOOR RESIDUAL SPRAYING: For reducing of flies, mosquitoes, roaches, waterbugs, ants and spiders, mix 1 gallon with 14 gallons of suitable solvent and apply as a coarse wet spray on garbage dumps, athletic fields, drive-in theatres, camp sites and around buildings. For outdoor meeting places spray several hours in advance of the desired period of protection. To prevent entry of flies, mosquitoes or wasps into human dwellings, apply to screens, window frames, doorsills and areas on porches where insects congregate. Heavy application is desirable for the most effective kill and greatest residual effect. Do not apply or allow to drift to areas occupied by unprotected humans or beneficial animals. Repeat application when necessary.

WARNING KEEP OUT OF REACH OF CHILDREN

May be fatal if swallowed, inhaled, or absorbed through the skin. Wash thoroughly with soap and water after handling and before smoking or eating. If swallowed, induce vomiting immediately and get medical attention. Avoid inhalation of mist or contact with skin. In case of contact with skin or eyes, wash with plenty of water. For eyes, get medical attention. Avoid contamination of feed and food stuffs, utensils, dishes or drinking water. Do not spray on humans or animals.

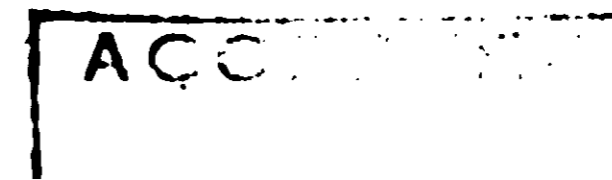

Do not use this product for household or indoor use.

Do not get in eyes, on skin, or on clothing. Do not breathe fumes. Wear clean rubber gloves and face shield when handling the concentrate. During commercial or prolonged exposure wear mask or respirator of a type passed for Vapona protection. Wash all contaminated clothing with soap and hot water before re-use.

Atropine is antidotal. 2-PAM is also antidotal and may be administered in conjunction with atropine.

This product is toxic to fish and wildlife.

Keep out of any body of water.

Atropine is antidotal. 2-PAM is also antidotal and may be administered in conjunction with atropine.

This product is toxic to fish and wildlife.

Keep out of any body of water.

Birds feeding on treated areas may be killed.

Do not apply when weather conditions favor drift from areas treated.

Do not apply where run-off is likely to occur.

This product is highly toxic to bees exposed to direct treatment or residues on crops. Protective information may be obtained from your Co-operative Agricultural Extension Service.

FLAMMABLE: Do not use or store near heat or open flames. Do not smoke while spraying.

Rinse equipment and containers and dispose of wastes by burying in non-crop lands away from water supplies. Wipe up any spillage or absorb with clay and bury with waste. Puncture containers and bury with waste, or burn to prevent re-use.

(Keep out of smoke.)
