Use 2 AQUA-CHLOR TABLETS for each 1000 gallons of water in swimming pool. Upon solution, the required chlorine residue is obtained. Additional treatment with AQUA-CHLOR TABLETS may be required during extreme heat or when abnormally heavy bathing load occurs.

Under above conditions, add 2 AQUA-CHLOR TABLETS to each 1000 gallons of pool content every 2 hours. Test pool water regularly with a Camp Pool Test Kit to assure proper chlorine content in pool at all times.

Place correct number of AQUA-CHLOR TABLETS into dispensing baskets and allow to sink below the water surface.

**WARNING**

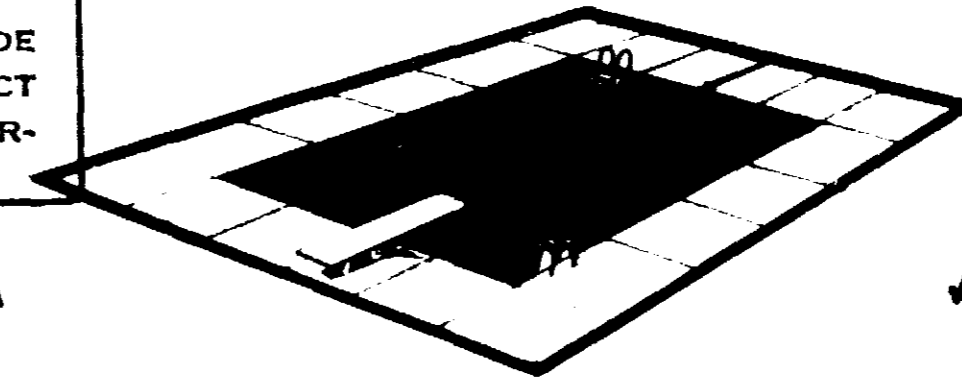

May be fatal if swallowed. May produce severe chemical burns. Do not get in eyes or on skin. In case of eye contact, flush with plenty of water. If irritation persists, get medical attention.

to Maintain the proper available chlorine residual of 0.6 to 1.0 ppm as determined by the use of a chlorine test kit.
