

MILFUSO No. 200 RESIDUAL INSECT SPRAY

For use in Homes and Commercial Areas

DIRECTIONS

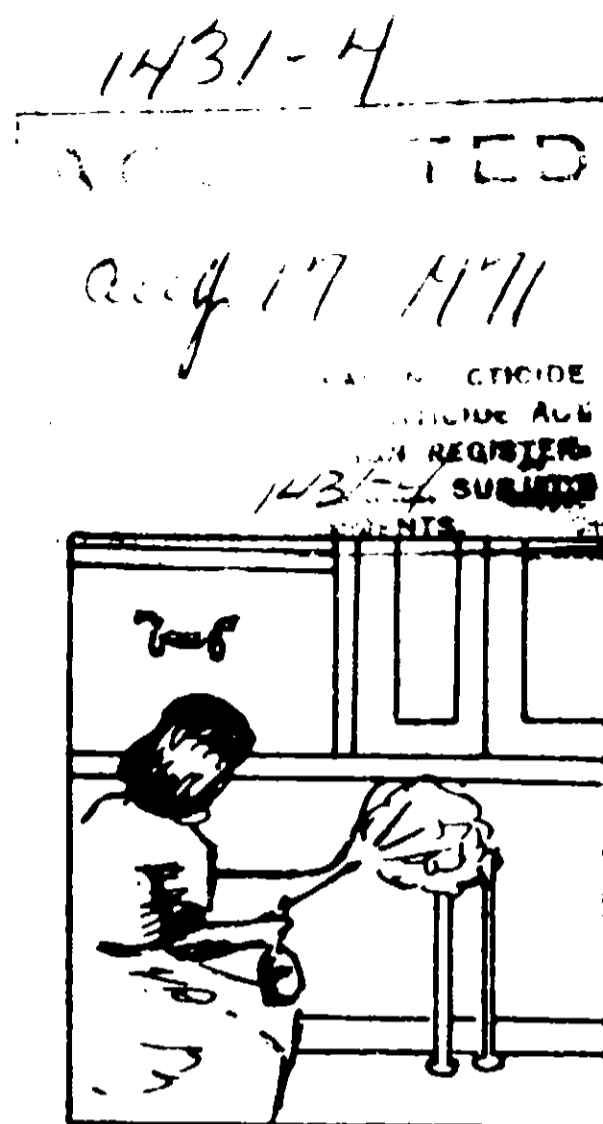

Use MILFUSO No. 200 RESIDUAL INSECT SPRAY in Milfred's Hi-Pressure Bugblast Gun or similar sprayers which throw a course heavy mist. Hold Sprayer Nozzle close to surfaces being treated in order to wet such and avoiding the forming of undesirable waste particles in the air. Hold Nozzle close to cracks, crevices and other hiding places. Most Household insects wet with this spray are quickly killed and surfaces wet with it remain effective against these insects which crawl or congregate on them, if the Spray Residues are not removed by cleaning, wear or weather. Undisturbed Sprays in cracks and crevices remain effective even longer.

TO KILL ROACHES, WATER BUGS, SILVERFISH:

Spot Spray liberally into all cracks, crevices and other infested areas, hitting as many insects as possible. Apply also around all pipe openings, through walls, floors, and cracks between tile. Thoroughly wet interior surfaces of all cracks, crevices, around baseboard drains, etc. Also spray until wet surfaces behind and beneath cabinets, refrigerators, sinks, stoves, etc. Repeat treatment as required. Thorough repeat treatments at regular intervals as a protective measure is recommended.

TO KILL FLIES, GNATS, MOSQUITOES OUTDOORS:

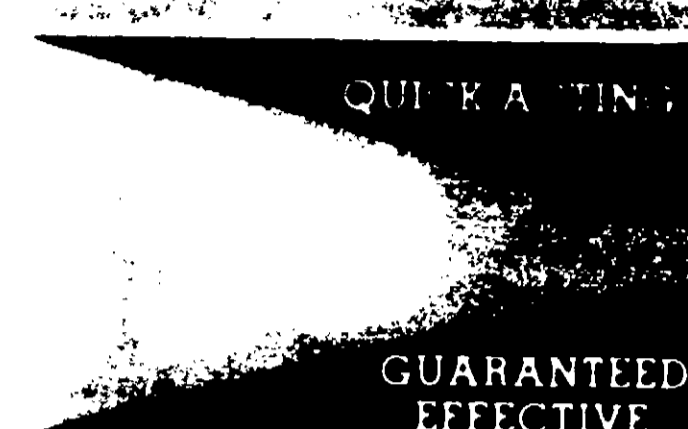

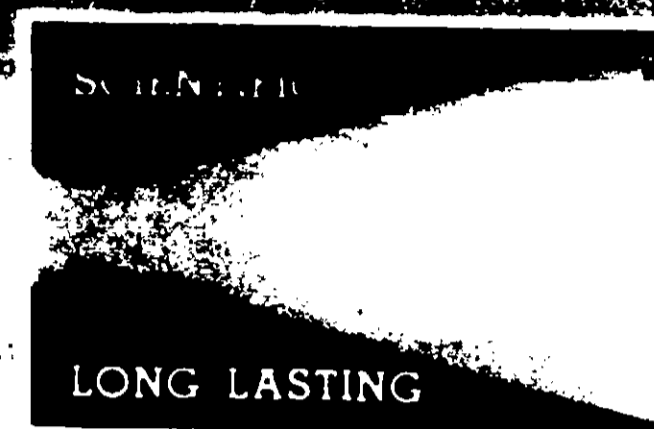

Spray outside screens, walls, and surfaces where insects may light. Repeat when necessary.

DOORS AND WINDOWS**

TO KILL ANTS:

Apply MILFUSO No. 200 to Ant Trails, around doors and windows and wherever ants enter the house. Treat refrigerator and table legs any crevices or cracks wherever ants are suspected of nesting. Repeat treatment as required. Thorough treatments at regular intervals are recommended as a protection against future infestation.

HOUSE SPIDER CONTROL:

Spot Treat Webs and infested and unexcavated areas during the spring months. This treatment will lessen the number of spiders which will migrate into living quarters later on.

U.S.D.A. Registration No. 1431-4

Do not re-use empty container. Destroy by crushing. Bury or discard in a safe place.

CAUTION

This solution if brought into contact with skin can cause toxic symptoms. Avoid inhalation and skin contact. In case of spillage on the skin, wash with soap and water. Avoid contamination of food stuffs. Do not use on Household pets or humans. Harmful if swallowed. Keep out of reach of children. Do not spray near an open flame. Do not use in commercial food preparation areas or in edible products areas of food processing plants.
