

**Amendments:**

- (1) WARNING: KEEP OUT OF THE REACH OF CHILDREN  
"See side panel for additional required caution statements."
- (2) CHEMICAL INSECTICIDE CORPORATION  
30 Whitman Avenue  
Metuchen, New Jersey  
Belle Glade, Florida.....Presque Isle, Maine
- (3) "U.S.D.A." Reg. No. 1439-101
- (4) PASTURES: Do not graze treated areas by dairy animals within 7 days after treatment.
- (5) SMALL GRAIN CROPS:
  - a. "Do not forage or graze grain fields for 2 weeks after treatment with 2,4-D."
  - b. "Do not use treated straw for livestock feed."

ACCEPTED WITH COMMENTS

CONT. NO. 10

Chemical Name: Chlordane. Trade Name: Chlordane. Pesticide Name: Chlordane. Pesticide No.: 100-107-10. Pesticide Type: Fungicide and insecticide. Pesticide Use: Aquatic. Pesticide Form: Granules. Pesticide Color: Tan. Pesticide Odor: Slight fishy odor. Pesticide Solubility: Soluble in water, slightly soluble in organic solvents, slightly soluble in mineral oil, and very soluble in ether. Pesticide Persistence: Pesticide is persistent. Pesticide Disposition: Pesticide is adsorbed by soil particles made in later stages and fall (as seeds, new growing plants); and in water areas exceeding about 6 feet in depth. Chem. Tech. 3,4-D is active against dicotyledonous (broadleaf) aquatic plants, both submersed and emergent. Generally, it is not effective in controlling grasses and other monocotyledonous plants; some of the apparently more susceptible species (certain Potamogeton and others) have been effectively controlled with higher rates of application (200 lbs. per acre). When using Chem. Tech. 3,4-D, it is necessary to treat only those areas which are infested with weeds. - and -   
MAINTAIN AVOID CONTACT WITH EYES AND SKIN. Avoid contact with eyes and skin. Avoid inhalation of vapors or mists. Wash face, thoroughly wash hands after handling soap and water. Rinse eyes before using soap. Wash eyes thoroughly with water and get in medical attention. Avoid contamination of food or foodstuffs.

REGISTRATION NO. 100-107-10

WARNING: KEEP OUT OF THE REACH OF CHILDREN

and keep in closed and unopened containers.

ACTIVE INGREDIENTS.....100.4%  
2,4-dichloroethyl ester of 2,4-dichlorophenoxyacetic acid (2,4-dichlorophenoxy acetic acid equivalent 27.0%).....100.4%

OTHER INGREDIENTS.....04.5%

PACKAGING

Do not drink and do not eat. Do not allow children to play in the area where treatments are made. Do not come in direct contact only. and a curative, but because of unusual importance of chemical insecticide.
