

LAWN-AID 2,4-D-DSMA Kills Dallis grass, Bullgrass, Sedge, Lemon Grass. Selectively kills crabgrass and many of its seeds in the soil as they germinate without injury to turf. Also kills clover. NORTHERN AREAS: Kills most common lawn weeds such as chickweed, knotweed, dandelion, plantains: SOUTHERN AREAS: Kills pursley, spotted spruce, large leaf spurge, Dichondra, pennywort, beggar weed and certain other weeds. A. B. C

#### DIRECTIONS

When using LAWN-AID PUMP SPRAYERS, use 2 ounces per each gallon to cover 1,000 square feet for a single application or, preferably, use 1 ounce per gallon of water for each 1,000 sq. feet and go over the area twice in different directions to insure complete coverage.

CAUTION: Harmful if swallowed. Avoid contact with skin. Avoid breathing ~~danger~~ spray mist. Wash hands after using. Avoid storage near food and feed products, seeds, insecticides or fungicides. Avoid spray drift to susceptible plants as this product may injure cotton, beans, peas, grapes, ornamentals, etc. (coarse sprays are less likely to drift). Use this product only on grass. A separate sprayer should be used as this product is very difficult to clean from equipment. ANTIDOTE: If taken internally induce vomiting and call physician at once.

FOR PROFESSION USE BY  
LAWN-AID DEALERS ONLY

- A. Do not use on newly seeded lawns.
- B. This product may cause possible injury to Bermuda, fescue, St. Augustine, and carpetgrass.
- C. Keep children and domestic animals off treated areas until material is thoroughly washed into the soil and grass is dry.
