ACCEPTED

JUN 17 1971

FOR USE IN  
ED UNDER REG. 1440-2 SUBJECT  
TO APPROVED TREATMENTS

## DIRECTIONS FOR USE

**Roaches**—Remove children, pets and fish bowls from quarters, cover foods and any utensils that may be used for foods. Use only a coarse spray in the cracks, crevices and other hiding places of roaches, applying enough to wet the surface without any run-off of the spray. The insects that are hit by the spray are killed.

**Ants**—Thoroughly spray ant trails and areas around door sills and window frames where these insects may enter the home.

**Spiders**—Thoroughly spray infested areas in basements, storage localities, and corners in rooms.

**Silverfish**—Thoroughly spray base boards, areas behind shelving, book cases, and storage areas.

**Crickets**—Thoroughly spray floors of closets, storage places, and other such hiding places.

**Carpet Beetles Control**—Thoroughly spray infested areas of carpets, localized areas of floors and base boards, and shelves of closets.

**Fleas, Brown Dog Ticks**—Thoroughly spray infested areas, sleeping quarters of household pets, and localized areas of floors and floor coverings. Fresh bedding should be placed in animal quarters following treatment.

**House Flies, Wasps, Mosquitoes**—Thorough and repeated spraying of selected surfaces such as doors, around windows, and screens, doorsills, and selected areas of porches where insects alight or congregate—and areas frequented by these insects.

**Box Elder Bugs & Clover Mites**—Areas should be thoroughly sprayed outdoors on porches or sides of houses and foundations where box elder bugs and clover mites congregate. Also, door sills and window frames should be sprayed where pests enter the home.

**Scorpions & Earwigs**—Thoroughly spray around door sills, window frames or other areas where these pests may enter the premises. Storage areas and other such hiding places should also be sprayed.

**CAUTION:** Harmful if swallowed—Avoid prolonged breathing of spray mist. Avoid prolonged or repeated contact with skin; wash hands thoroughly after using. Avoid contamination of food and food-stuffs.

Keep out of reach of children • Do Not Spray Into or Near Open Flame  
"Do not use in commercial food preparation areas or in edible products areas of food processing plants."  
"Do not reuse empty container. Destroy it by burying with waste or burning. Stay away from smoke or fumes."
