Dennis L. Barbee, Ph.D.  
Director, Regulatory Affairs  
Buckman Laboratories, Inc.  
1256 North McLean Blvd.  
Memphis, TN 38108

Subject: WSCP 30  
EPA Registration No. 1448-63  
Application Date: November 25, 2002  
EPA Received Date: November 29, 2002

Dear Dr. Barbee:

The following amendment, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is acceptable with the conditions listed below.

**Proposed Amendment**

- Update First Aid Statement per PR Notice 2001-1

**Conditions**

Revise the label as follows:

1. Separate the Precautionary Statement heading from the First Aid Statements. In addition, the precautionary heading and its statement must be grouped together to read as follows:

**Precautionary Statements**

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

**CAUTION:** Harmful if swallowed. Avoid breathing vapors. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling.

2. The child signal word "Caution" and the "Keep Out of Reach of Children" statement must be placed under the ingredient statement.

SURNAME	J. Barbee						
DATE	1-22-03						

**Other Comments**

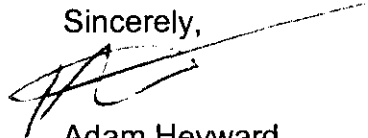

Please explain why this product label does not contain a re-entry interval time following the application of this product in swimming pools.

**General Comments**

A stamped copy of the labeling accepted with conditions is enclosed. Submit one(1) copy of your final printed labeling before distributing or selling the product bearing the revised labeling.

Should you have any questions or comments concerning this letter, please contact me at 703-308-6422.

Sincerely,

Adam Heyward  
Product Manager 34  
Regulatory Management Branch II  
Antimicrobials Division (7510 C)

KEEP OUT OF REACH OF CHILDREN

CAUTION

Precautionary Statements

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

FIRST AID

Table with 2 columns: Exposure (Eyes, Skin/Clothes, Ingested, Inhaled) and First Aid instructions.

HOT LINE NUMBER

Have the product container or label with you when calling a Poison Control Center or doctor or going for treatment. You may also contact 901-278-0330 or 1-800-BUCKMAN for emergency medical treatment information.

CAUTION: Harmful if swallowed. Avoid breathing vapors. Avoid contact with skin, eyes, or clothing.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Keep out of lakes, streams, or ponds. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

Table of Active and Inert Ingredients: Poly[oxyethylene(dimethyliminio)ethylene] 30.0%, (dimethyliminio)ethylene dichloride 70.0%, TOTAL 100.0%

Storage and Disposal

Do not contaminate water, food, or feed by storage or disposal. PESTICIDE STORAGE: Do not stack more than four drums high. Leaking or damaged drums should be placed in overpack drums for disposal. Spills should be absorbed in sawdust or sand and disposed of in a sanitary landfill. Keep container closed when not in use. PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. CONTAINER DISPOSAL: PLASTIC: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke. METAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

Table with manufacturer information: Buckman Laboratories, Inc., 1256 North McLean Blvd., Memphis, Tennessee 38108, USA. EPA Est. No. 1443-TN-1, EPA Reg. No. 1448-63, Product Weight 8.9 lbs/gal. 1.07 kg/l. Net contents are marked on the container. HHS / NPCA Ratings: Health 1, Flammability 1, Reactivity 1. Last Revision: 11/6/2002.

Directions for Use

It is a violation of Federal law to use this product in a manner inconsistent with the label.

WSCP 30 is used to control the growth of algae in swimming pools and to control algal growth in industrial water cooling towers. It is also employed for the control of algae, bacteria, and fungi to inhibit the growth of bacteria that cause degradation of cutting fluids. Refer to Microbiocide Concentrate for detailed directions on fresh water and cutting fluid applications.

Prior to the use of WSCP 30 in WATER COOLING TOWERS, systems should be cleaned to remove other deposits. Then make an initial slug addition of 1.90 to 4.75 fluid ounces of WSCP 30, based on the total weight of water in the system. Repeat initial dosage until the water is clear. 0.47 to 4.75 fluid ounces of WSCP 30 per 1000 gallons of water (4 to 40 ppm WSCP 30) addition depends upon the relative amount of bleedoff and the severity of the microbial problem in the sump of water cooling towers.

For maximum effectiveness of WSCP 30 in SWIMMING POOLS, those with heavy growth of algae, settle out and settle algae debris by cleaning. For treatment of a freshly cleaned and filled pool, add 24 to 37 gallons of water. To maintain pools free of visible algae growth, subsequent additions should be made every 5 to 7 days after the initial treatment.

Uniform distribution of WSCP 30 throughout the water in the pool is necessary for maximum effectiveness. WSCP 30 is effective at both acid and alkaline pH. WSCP 30 can be used in place of other chemicals normally used to treat pools and is effective at both acid and alkaline pH. WSCP 30 can be used in place of other chemicals normally required. However, do not mix WSCP 30 with other chemicals.

WSCP 30 is used to control bacteria in INDUSTRIAL AIR WASHING SYSTEMS that may have bacterial slime and other deposits. An initial dosage of 1000 gallons of water is recommended. Repeat initial dosage until control is evident. WSCP 30 per 1000 gallons of water should be employed each 1 to 5 days, or as needed to control amount of bleedoff and severity of the bacterial problem. Slug additions may be made to the system.

ACCEPTED with COMMENTS EPA Letter Dated:

JAN 22 2003

Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, for the pesticide, registered under EPA Reg. No. 1443-6
