

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER

CAUSES EYE DAMAGE

CAUSES SEVERE SKIN IRRITATION, ESPECIALLY TO BROKEN SKIN

HARMFUL IF SWALLOWED

Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling this product. Remove and wash contaminated clothing. Do not take internally.

STORAGE AND DISPOSAL

STORAGE: Do not contaminate water, food, or feed by storage or disposal. Open dumping is prohibited. If plastic, do not reuse empty container.

DISPOSAL: Pesticide or insecticide that cannot be used or chemically reprocessed should be disposed of in a landfill approved for pesticides or buried in a safe place away from water supply. Triple rinse (or equivalent) all containers and, for metal containers, offer for recycling or reconditioning (for plastic containers dispose in an incinerator), or dispose in landfill approved for pesticide containers or bury in a safe place. Consult federal, state, or local disposal authorities for approved alternative procedures.

GENERAL INFORMATION

Busan 101 is an effective anti-bacterial cleaner designed for use in household, industrial, and institutional cleaning. When used as directed, Busan 101 will disinfect hard non-porous surfaces, such as floors, walls, countertops, and furniture. It may be relied upon to deodorize bathroom areas, garbage pails, diaper pails, food storage areas, animal quarters, and other areas where obnoxious odors may develop. This product may be used to control pathogenic fungi, and as a general purpose anti-bacterial detergent in homes, schools, restaurants, hospitals, nursing homes, public rooms, and other places where efficient cleaning and antimicrobial action is desired.

NET CONTENTS AS MARKED ON CONTAINER

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

FOR CLEANING

Lightly soiled areas—surfaces to be cleaned should be mopped or brushed with a solution containing 1 ounce of Busan 101 per gallon of water. Rinse cleaned area with fresh water.

Heavily soiled areas—mop or brush soiled surface with a solution containing 2-3 ounces of Busan 101 per gallon of water. Rinse cleaned surface with fresh water.

GENERAL PURPOSE DISINFECTION

To disinfect walls, floors, and other hard non-porous surfaces in homes, schools, restaurants, restrooms, and other public areas, mop or brush with a fresh solution containing 1 ounce of Busan 101 per gallon of water so as to maintain thoroughly wetted surface for ten minutes. All soiled surfaces must be pre-cleaned prior to disinfection (follow directions for cleaning). These surfaces which may later come in contact with food must be rinsed with clear water of drinking quality. Do not reuse used solution.

To disinfect hard non-porous surfaces in locker rooms, shower stalls, walkways around pools, and other areas against pathogenic fungi, mop or brush with a fresh solution containing 2 ounces of Busan 101 per 3 gallons of water so as to maintain thoroughly wetted surface for ten minutes. This solution will destroy *Trichophyton interdigitale*, a causative agent of athlete's foot. All soiled surfaces must be pre-cleaned prior to disinfection (follow directions for cleaning). Do not reuse used solution.

HOSPITAL DISINFECTION

To disinfect walls, floors, furniture, and other hard non-porous surfaces in hospitals and nursing homes, mop or brush with a fresh solution containing 2 ounces of Busan 101 per gallon of water so as to maintain thoroughly wetted surface for ten minutes. All soiled surfaces must be pre-cleaned prior to disinfection (follow directions for cleaning). These surfaces that are heavily soiled with blood, fecal material, or emulsions should be thoroughly scrubbed with a solution containing 2 ounces of Busan 101 per gallon of water, and then rinsed with a fresh solution containing 2 ounces of Busan 101 per gallon of water before disinfection. Do not reuse used solution. This product has not been tested for effectiveness against *Mycobacterium tuberculosis* and must not be relied upon when tuberculous activity is involved by the user.

DEODORIZATION

Prior to deodorization of bathroom areas, garbage pails, diaper pails, food storage areas, kennel areas, and other areas where obnoxious odors may develop, remove all garbage, refuse, food and/or excreta. Pre-clean surfaces using pressurized water where possible before deodorization. To deodorize, mop or brush surfaces thoroughly with a solution containing 2 ounces of Busan 101 per gallon of water.
